The Board of Directors presents its report together with the audited consolidated financial statements for the year ended 31 December 2010. The Group's consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and the requirements of Cyprus Companies Law, Cap. 113.

Principal activities

The principal activity of the Group is pump manufacture and providing of flow control solutions and related services to the oil and gas, nuclear and thermal power generation and water utility sectors in Russia and the CIS.

Review of developments, position and performance of the Group's business

In 2010, revenue grew by 56% to RR 23,070 million, including RR 1,381 million of revenue from acquired Giprotyumenneftegaz OJSC ("GTNG"). Organic revenue growth excluding impact from GTNG acquisition was 47%. The strongest growth related to Industrial pumps segment. Revenue of Modular equipment and EPC segments has also shown solid growth, reflecting strong demand for the equipment and construction services from major Russian oil companies.

EBITDA grew by 86% to RR 3,519 million, driven by significant growth of revenues in all operating segments, focus on new, high-margin contracts and acquisition of GTNG. EBITDA margin has also improved to 15.3% in 2010 from 12.8% in 2009.

Net profit has greatly improved, from RR 70 million in 2009 to RR 1,581 million in 2010. Strong demand in favorable market conditions and improvements in operational activities were the primary factors for net profit growth in 2010.

Principal risks and uncertainties

The Group's critical accounting estimates and judgments and financial risk management are disclosed in Notes 4 and 36 to the consolidated financial statements.

The Group's contingencies are disclosed in Note 34 to the consolidated financial statements.

The Board has adopted a formal process to identify, evaluate and manage significant risks faced by the Group.

Future developments

The Board of Directors does not expect any significant changes in the activities of the Group in the foreseeable future. The Group's strategic objective is to achieve continued organic growth by focusing on its higher margin integrated and highly engineered solutions, capitalising on positive industry trends and improving its overall operational efficiency. The Group also intends to enhance its research and development capabilities leveraging the experience and knowledge base of its existing teams to develop upgrades and new solutions, as well as more energy efficient pumps. In addition, the Group will continue to pursue selective, value-enhancing acquisitions which enable it to enter attractive new markets, provide access to complementary technology and research and development facilities and which offer cost and revenue synergies with its existing businesses.

Results

The Group's results for the year are set out on page 10 of the consolidated financial statements.

Dividends

Pursuant to its Articles of Association, the Company may pay dividends out of its profits. To the extent that the Company declares and pays dividends, owners of global depository receipts (GDRs) on the relevant record date will be entitled to receive dividends payable in respect of Ordinary Shares underlying the GDRs, subject to the terms of the Deposit Agreement.

The Company is a holding company and thus its ability to pay dividends depends on the ability of its subsidiaries to pay dividends to the Company in accordance with relevant legislation and contractual restrictions. The payment of such dividends by such subsidiaries is contingent upon the sufficiency of their earnings, cash flows and distributable reserves and, in the case of Russian subsidiaries, is restricted to the total accumulated retained earnings of the relevant subsidiary, determined according to Russian law.

As a newly incorporated company, the Company has not previously declared any cash dividends on its share capital. The Board of Directors does not recommend any payment of cash dividends in respect of the year ended 31 December 2010.

Share capital

The Company was incorporated under the name of Bishopstow Holdings plc on 27 April 2010 as a public limited company with an authorised share capital of EUR 26,000 (RR 1,010 thousand) divided into 26,000 ordinary shares of EUR 1 each. On 7 June 2010, pursuant to the unanimous written resolution of the general meeting of the Company, the existing authorised share capital of EUR 26,000, divided into 26,000 ordinary shares of EUR 1 each, was subdivided into 2,600,000 ordinary shares of EUR 0.01 each.

On 18 June 2010, pursuant to the unanimous written resolution of the general meeting of the Company, it was decided to change the name of the Company from Bishopstow Holdings Plc to H.M.S. HYDRAULIC MACHINES & SYSTEMS GROUP PUBLIC CO. LIMITED. The name was approved by the Registrar of Companies of Cyprus on 29 June 2010.

On 28 September 2010, pursuant to the unanimous written resolution of the general meeting of the Company the authorised share capital was increased from EUR 26,000, divided into 2,600,000 ordinary shares of EUR 0.01 each, to EUR 875,946 (RR 36,154 thousand), divided into 87,594,600 ordinary shares of EUR 0.01 each.

On 15 November 2010, pursuant to the unanimous written resolution of the general meeting of the Company, it was decided to change the name of the Company from H.M.S. HYDRAULIC MACHINES & SYSTEMS GROUP PUBLIC CO. LIMITED to HMS Hydraulic Machines & Systems Group plc. The name was approved by the Registrar of Companies of Cyprus on 3 January 2011.

On 8 December 2010, pursuant to the unanimous written resolution of the general meeting of the Company, the authorised share capital of the Company was increased from EUR 875,946, divided into 87,594,600 ordinary shares of EUR 0.01 each, to EUR 1,026,000 (RR 42,510 thousand), divided into 102,600,000 ordinary shares of EUR 0.01 each.

On 12 January 2011, pursuant to the unanimous written resolution of the general meeting of the Company, the authorised share capital was increased from EUR 1,026,000, divided into 102,600,000 ordinary shares of EUR 0.01 each, to EUR 1,207,058.82, divided into 120,705,882 ordinary shares of EUR 0.01 each.

Following the offering on 9 February 2011 ("the Offering") of GDRs, on 10 February 2011, the Company has issued 14,563,427 new ordinary shares out of the authorised share capital as fully paid at a price of USD 8.25. In the context of the Offering, the existing shareholders have also sold 29,076,573 shares to the public. Each GDR is represented by one ordinary share of the Company. The gross proceeds from the IPO, related to and receivable by the Company, amounted to approximately RR 3,530 million and the Company's transaction costs amounted to approximately RR 211 million.

At the date of approval of these consolidated financial statements, the Company's issued share capital consisted of 117,163,427 ordinary shares with par value of EUR 0.01, which are fully paid, and the Company's authorised share capital consisted of 120,705,882 ordinary shares.

The Company does not have in issue any listed or unlisted securities not representing its share capital. Neither the Company nor any of its subsidiaries (nor any party on its behalf) holds any of its ordinary shares.

Neither the Company nor any of its subsidiaries has any outstanding convertible securities, exchangeable securities or securities with warrants or any relevant acquisition rights or obligations over the Company's or either of the subsidiaries' authorised but unissued capital or undertakings to increase its issued share capital.

The Company's Articles of Association and the Companies Law, Cap 113 (as amended), to the extent not disapplied by shareholders' resolution, confer on shareholders certain rights of pre-emption in respect of the allotment of equity securities which are, or are to be, paid up in cash and, following the Offering, will apply to the Company's authorised but unissued share capital. Subject to certain limited exceptions, unless the approval of the Company's shareholders in a general meeting is obtained, the Company must offer shares to be issued for cash to holders of shares on a pro rata basis. None of the Company's shares are currently in issue with a fixed date on which entitlement to a dividend arises and there are no arrangements in force whereby future dividends are waived or agreed to be waived.

The role of the Board of Directors

The Group is managed by the Board of Directors which is collectively responsible to the shareholders for the success of the Group. The Board sets the strategic objectives and ensures that the necessary resources are in place to enable these objectives to be met. The Board is fully involved in decision making in the most important areas of business and conducts regular reviews of the Group's operational and financial performance. One of the Board's key responsibilities is to ensure that there is in place a system of prudent and effective risk controls that enable risks to be identified, assessed and managed appropriately

Members of the Board of Directors

The members of the Board of Directors at 31 December 2010 and at the date of this report are shown on page 1.

In accordance with the Company's Articles of Association all the Directors retire at the first Annual General meeting and being eligible offer themselves for re-election. At every subsequent Annual General Meeting one third of Directors shall retire by rotation and will be entitled to run for re-election.

There were no significant changes in the assignment of responsibilities of the Board of Directors.

Directors' interests

The interests in the share capital of the Company, both direct and indirect, of those who were Directors at 31 December 2010 are shown below:

Director	Interest in the share capital of the Company at 31 December 2010	Interest in the share capital of the Company at 20 April 2011
Vladimir V. Lukyanenko	36.6%	24.0%
German A. Tsoy	26.6%	17.3%
Artem V. Molchanov	9.0%	5.3%
Nikolai N. Yamburenko	7.9%	5.0%
Yury N. Skrynnik	4.1%	2.7%
Kirill V. Molchanov	2.8%	1.6%

Events after the balance sheet date

The events after the balance sheet date are disclosed in Note 37 to the consolidated financial statements.

The Board Committees

The Group has established two committees: the Audit Committee and the Remuneration Committee. A brief description of the terms of reference of the committees is set out below.

Audit Committee. The audit committee comprises three directors, two of whom are independent, and expects to meet at least four times each year. Currently the audit committee is chaired by Philippe Delpal and the other members are Gary S. Yamamoto and Vladimir V. Lukyanenko. The audit committee is responsible for considering, amongst other matters: (i) the integrity of the Group's financial statements, including its annual and interim financial statements, and the effectiveness of the Group's internal controls and risk management systems; (ii) auditors' reports; and (iii) the terms of appointment and remuneration of the auditor. The committee supervises and monitors, and advises the Board of Directors on, risk management and control systems and the implementation of codes of conduct. In addition, the audit committee supervises the submission by the Group of financial information and a number of other audit-related issues and assesses the efficiency of work of the Chairman of the Board of Directors.

Remuneration Committee. The remuneration committee comprises four directors and expects to meet at least once each year. Currently the remuneration committee is chaired by Gary S. Yamamoto, an independent director, and Vladimir V. Lukyanenko and Yury N. Skrynnik and German Tsoy are members. The remuneration committee is responsible for determining and reviewing, amongst other matters, the Group's remuneration policies. The remuneration of independent directors is a matter for the chairman of the Board of Directors and the executive directors. No director or manager may be involved in any decisions as to his/her own remuneration.

Corporate Governance

The Company is committed to maintaining the highest standards of corporate governance throughout the Company and the Group. The Company's and the Group's corporate governance policies and practices are designed to ensure that we are focused on upholding our responsibilities to our shareholders and include policies on appointment of independent directors, establishment and constitution of the audit and remuneration committees, ethical conduct, securities dealings and disclosure.

Board and management remuneration

The directors of the Company did not receive remuneration directly from the Company during the year ended 31 December 2010. The remuneration received by the Company's Directors from subsidiaries in their executive capacity amounted to RR 75,802 thousand for the year ended 31 December 2010 (2009: RR 50,778 thousand). See also Note 33.

Branches

The Company did not operate through any branches during the year ended 31 December 2010.

Treasury shares

The Company did not acquire either directly or through a person in his own name, but on the Company's behalf any of its own shares.

Going concern

Directors have access to all information necessary to exercise their duties. The Directors continue to adopt the going concern basis in preparing the consolidated financial statements based on the fact that, after making enquiries and following a review of the Group's budget for 2010, including cash flows and borrowing facilities, the Directors consider that the Group has adequate resources to continue in operation for the foreseeable future.

Auditors

The Independent Auditors, PricewaterhouseCoopers Limited, have expressed their willingness to continue in office. A resolution giving authority to the Board of Directors to fix their remuneration will be proposed at the annual general meeting.

By order of the Board

German A. Tsoy
Chairman of the Board of Directors
Limassol
20 April 2011

Directors' responsibility statement

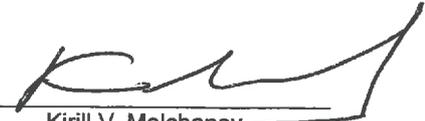

Each of the Directors, whose names and functions are listed in page 1 of the consolidated financial statements confirm that, to the best of each person's knowledge and belief, the consolidated financial statements:

- have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union and the requirements of the Cyprus Companies Law, Cap. 113; and
- give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and the undertakings included in the consolidation taken as a whole.

By order of the Board

Artem V. Molchanov
Director

Independent Auditor's Report

To the Members of HMS Hydraulic Machines & Systems Group Plc

Report on the consolidated financial statements

We have audited the accompanying consolidated financial statements of HMS Hydraulic Machines & Systems Group Plc (the "Company") and its subsidiaries, which comprise the consolidated balance sheet as at 31 December 2010, and the consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Board of Directors' responsibility for the consolidated financial statements

The Board of Directors is responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the European Union and the requirements of the Cyprus Companies Law, Cap. 113, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

PricewaterhouseCoopers Ltd is a member firm of PricewaterhouseCoopers International Ltd, each member firm of which is a separate legal entity. PricewaterhouseCoopers Ltd is a private company registered in Cyprus (Reg. No. 143594). A list of the company's directors including for individuals the present name and surname, as well as any previous names and for legal entities the corporate name, is kept by the Secretary of the company at its registered office at 3 Themistocles Dervis Street, 1066 Nicosia and appears on the company's web site. Offices in Nicosia, Limassol, Larnaca and Paphos.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the financial position of HMS Hydraulic Machines & Systems Group Plc and its subsidiaries as at 31 December 2010, and of their financial performance and their cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union and the requirements of the Cyprus Companies Law, Cap. 113.

Report on other legal and regulatory requirements

Pursuant to the requirements of the Law of 2009 on Statutory Audits of Annual and Consolidated Accounts, we report the following:

- We have obtained all the information and explanations we considered necessary for the purposes of our audit.
- In our opinion, proper books of account have been kept by the Company.
- The Company's consolidated financial statements are in agreement with the books of account.
- In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements give the information required by the Cyprus Companies Law, Cap. 113, in the manner so required.
- In our opinion, the information given in the report of the Board of Directors is consistent with the consolidated financial statements.

Other matter

This report, including the opinion, has been prepared for and only for the Company's members as a body in accordance with Section 34 of the Law of 2009 on Statutory Audits of Annual and Consolidated Accounts and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whose knowledge this report may come to.

1 General Information

HMS Hydraulic Machines & Systems Group plc (the “Company”) was incorporated in Cyprus on 27 April 2010 and registered at 2-4 Arch. Makarios III Avenue, 1065 Nicosia, Cyprus, under the name of Bishopstow Holdings plc, with a start share capital of EUR 26 thousand (RR 1,010). In June 2010, the Company was acquired by a group of individuals who were shareholders of Open Joint Stock Company HMS Group (“HMS Group OJSC”), and renamed H.M.S. HYDRAULIC MACHINES & SYSTEMS GROUP PUBLIC CO. LIMITED. Since the date of incorporation and up to the legal acquisition of HMS Group (see below), the Company did not have any activities. On 3 January 2011, the Company was renamed HMS Hydraulic Machines & Systems Group plc.

The principal business activities of HMS Group OJSC and its subsidiaries (the “HMS Group”) are the manufacture of a wide range of pumps and pumping units, manufacturing and repairing of modular equipment, including oil and gas equipment, engineering and construction services mainly for oil and gas companies. These products and services are sold both in the Russian Federation and abroad. HMS Group OJSC is incorporated and domiciled in the Russian Federation. The address of its registered office is Chayanova St. 7, 125047 Moscow. The HMS Group’s manufacturing facilities are primarily located in Orel, Vladimir, Tomsk and Tumen regions of the Russian Federation, Sumy in Ukraine and Minsk in Belorussia.

The parent company of HMS Group OJSC is HMS-Holding LLC which till September 2010 was jointly controlled by Hydroindustry LLC and Hydromashinvest LLC. In accordance with the charter of HMS-Holding LLC, Hydroindustry LLC had the right to appoint the executive body of HMS-Holding LLC and its subsidiaries (including HMS Group OJSC) and Hydromashinvest LLC had the right to appoint the checkup committee of HMS-Holding LLC and its subsidiaries (including HMS Group OJSC).

In September 2010, the shareholders of Hydroindustry LLC, Hydromashinvest LLC and other entities owning shares of HMS-Holding LLC and of HMS Group OJSC signed a restructuring agreement. Under this agreement, the shares of those shareholders in the entities, holding shares in HMS-Holding LLC and direct shares in HMS Group OJSC, were contributed into the share capital of the Company in exchange for newly issued shares (Note 24), so that their shares in this new parent company reflect their respective effective shares in HMS-Holding LLC and in HMS Group OJSC before the restructuring. The shareholders’ rights in respect of the Group’s governance and control were contractually retained during the restructuring period.

In December 2010, the shareholders of the Company signed a shareholders’ agreement, prescribing them till 31 January 2011 to contribute their shares in the Company into the share capital of a private Cyprus entity named H.M.S. Technologies Ltd. (“HMST”). In accordance with this agreement, upon the contribution of shares, occurred in steps in January and February 2011, the group of shareholders comprising former shareholders of Hydroindustry LLC obtained the right to appoint all members of the Boards of Directors of HMST and of the Company, other than one director, and the group of shareholders comprising former shareholders of Hydromashinvest LLC obtained the right to appoint one director to the Boards of Directors of HMST and of the Company, who oversees the control and revision function. Consequently, the group of shareholders comprising former shareholders of Hydroindustry LLC obtained control over the Company (see Note 37). At 31 December 2010, this group of shareholders consisted of Mr. Tsoy G.A., Mr. Molchanov A.V., Mr. Molchanov K.V., Mr. Khromov V.V., Mr. Frolov A.V. and Mr. Borovko A.A.

The Company and its subsidiaries, over which the Company obtained control as a result of restructuring procedures, described above, are together referred to as the Group.

2 Operating Environment of the Group

The Russian Federation displays certain characteristics of an emerging market, including relatively high inflation and high interest rates. The recent global financial crisis has had a severe effect on the Russian economy and the financial situation in the Russian financial and corporate sectors significantly deteriorated since mid-2008. In 2010, the Russian economy experienced a moderate recovery of economic growth. The recovery was accompanied by a gradual increase of household incomes, lower refinancing rates, stabilisation of the exchange rate of the Russian Rouble against major foreign currencies, and increased liquidity levels in the banking sector.

The tax, currency and customs legislation within the Russian Federation is subject to varying interpretations and frequent changes. The future economic direction of the Russian Federation is largely dependent upon the effectiveness of economic, financial and monetary measures undertaken by the Government, together with tax, legal, regulatory and political developments.

Management is unable to predict all developments which could have an impact on the Russian economy and consequently what effect, if any, they could have on the future financial position of the Group. Management believes it is taking all the necessary measures to support the sustainability and development of the Group’s business.

3 Summary of Significant Accounting Policies

Basis of preparation. These consolidated financial statements for the year ended 31 December 2010 have been prepared in accordance with International Financial Reporting Standards (“IFRS”), as adopted by the European Union, under the historical cost convention as modified by initial recognition of financial instruments based on fair value. The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented.

As described in Note 1, during 2010, the parent company of HMS Group has changed from HMS Group OJSC to HMS Hydraulic Machines & Systems Group plc. The IFRS consolidated balance sheet at 31 December 2010 has been prepared using a predecessor accounting method. The assets and liabilities of HMS Group's subsidiaries were recorded in these consolidated financial statements at their pre-restructuring IFRS carrying amounts. The share capital and share premium are presented to provide useful information to the users of the financial statement about the share capital of the new parent using the predecessor basis as of 1 January 2009. The difference between the predecessor value of share capital and the value of the Company's share capital and share premium was recorded as an adjustment in retained earnings. Also, the difference between the predecessor value of other reserves and the value of other reserves of the restructured Group was recorded as an adjustment in retained earnings.

A reconciliation between previously presented equity items presented by HMS Group OJSC to the amounts disclosed in these consolidated financial statements is presented below:

	Share capital	Share premium	Share capital to be issued	Other reserves	Currency translation reserve	Retained earnings	Non-controlling interest	Total equity
At 1 January 2009								
Equity previously disclosed	591,180	-	-	(26,834)	(122,942)	1,635,994	648,114	2,725,512
Transfer due to restructuring	(555,026)	210,862	6,356	63,869	-	273,939	-	-
Other*	-	-	-	-	-	(88,975)	-	(88,975)
Equity after restructuring	36,154	210,862	6,356	37,035	(122,942)	1,820,958	648,114	2,636,537
At 31 December 2009								
Equity previously disclosed	591,180	-	-	(26,834)	(168,051)	1,308,801	669,631	2,374,727

(*) Other – include effect of consolidation of companies that hold directly and indirectly 100% in share capital of HMS Group OJSC.

3 Summary of Significant Accounting Policies (continued)

Consolidated financial statements. These consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are identified separately from the Group's equity therein. The interests of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interests' share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Changes in the Group's interests in subsidiaries that do not result in a loss of control are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Group.

When the Group loses control of a subsidiary, the profit or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill), and liabilities of the subsidiary and any non-controlling interests. Amounts previously recognised in other comprehensive income in relation to the subsidiary are accounted for (i.e. reclassified to profit or loss or transferred directly to retained earnings) in the same manner as would be required if the relevant assets or liabilities were disposed of. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IAS 39 "Financial Instruments: recognition and measurement" or, when applicable, the cost on initial recognition of an investment in an associate or jointly controlled entity.

Business combinations. Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the fair values (at the date of exchange) of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

Where applicable, the consideration for the acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values, other than equity-related contingent consideration, are adjusted against the cost of acquisition where they qualify as measurement period adjustments (see below). All other subsequent changes in the fair value of contingent consideration classified as an asset or liability are accounted for in accordance with relevant IFRS.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3(R) are recognised at their fair value at the acquisition date, except that:

- Deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with IAS 12 "Income taxes" and IAS 19 "Employee benefits" respectively;
- Liabilities or equity instruments related to the replacement by the Group of an acquiree's share-based payment awards are measured in accordance with IFRS 2 "Share-based payment"; and
- Assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 "Non-current assets held for sale and discontinued operations" are measured in accordance with that Standard.

3 Summary of Significant Accounting Policies (continued)

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date. The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date – and is subject to a maximum of one year.

When acquisition does not meet the definition of a business, the Group allocates the cost of such acquisition between the individual identifiable assets and liabilities acquired based on their relative fair values at the date of acquisition. Such transactions or events do not give rise to goodwill.

Goodwill. Goodwill arising in a business combination is recognised as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Goodwill is carried at cost less accumulated impairment losses, if any. The Group tests goodwill for impairment at least annually and whenever there are indications that goodwill may be impaired. Goodwill is allocated to the cash-generating units ("CGUs"), or groups of cash-generating units, that are expected to benefit from the synergies of the business combination. Such units or groups of units represent the lowest level at which the Group monitors goodwill and are not larger than an operating segment. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Associates. An associate is an entity over which the Group has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment is classified as held for sale, in which case it is accounted for in accordance with IFRS 5 "Non-current assets held for sale and discontinued operations". Under the equity method, investments in associates are carried in the consolidated statement of financial position at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the associate, less any impairment in the value of individual investments. Losses of an associate in excess of the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate) are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of the associate recognised at the date of acquisition is recognised as goodwill. The goodwill is included within the carrying amount of the investment and is assessed for impairment as part of that investment. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

When a group entity transacts with an associate of the Group, profits and losses are eliminated to the extent of the Group's interest in the relevant associate.

3 Summary of Significant Accounting Policies (continued)

Functional and presentation currency. Functional currency of each of the Group's consolidated entities is the currency of the primary economic environment in which the entity operates. The functional currencies of the Group's subsidiaries and associates are Russian Roubles ("RR"), Ukrainian Hryvnas ("UAH"), and Belorussian Roubles ("BYR"); and the Group's presentation currency is the national currency of the Russian Federation, Russian Roubles.

Monetary assets and liabilities, denominated in foreign currencies, are translated into each entity's functional currency at the official exchange rate of the Central Bank of the Russian Federation (hereinafter "CBRF") at the respective statement of financial position date. Foreign exchange gains and losses resulting from the settlement of the transactions and from the translation of monetary assets and liabilities into each entity's functional currency at year-end official exchange rates of the CBRF are recognised in profit or loss.

The results and financial position of all of the Group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- (ii) income and expenses are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (iii) all resulting exchange differences are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations, are taken to other comprehensive income. When a foreign operation is partially disposed of or sold, exchange differences that were recorded in other comprehensive income are recognised in the profit or loss as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

At 31 December 2010 and 2009, the principal rates of exchange used for translating foreign currency balances were:

	2010	2009
1 USD = RR	30.4769	30.2442
1 UAH = RR	3.8283	3.7617
1 BYR = RR	0.01016	0.01061

Current and non-current assets and liabilities. The classification of an asset or liability as a current or non-current asset or liability in general depends on whether the item is related to serial production or subject to long-term construction contracts. In case of serial production, an asset or liability is classified as a non-current asset or liability when the item is realised or settled respectively after twelve months after the reporting date, and as current asset or liability when the item is realised or settled respectively within twelve months after the reporting date. In case of construction contracts, an asset or liability is classified as non-current when the item is realised or settled respectively beyond the Group's normal operating cycle; and as a current asset or liability when the item is realised or settled in the Group's normal operating cycle. Accordingly, there are amounts due to/due from customers under construction contracts, inventories, advances to suppliers and subcontractors, which may not be realised within twelve months after the reporting date, that have been classified as current.

3 Summary of Significant Accounting Policies (continued)

Property, plant and equipment. Property, plant and equipment are stated at historic acquisition or construction cost less accumulated depreciation and provision for impairment, where required.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

At each reporting date management assesses whether there is any indication of impairment of property, plant and equipment. If any such indication exists, the management estimates the recoverable amount, which is determined as the higher of an asset's fair value less costs to sell and its value in use. The carrying amount is reduced to the recoverable amount and the impairment loss is recognised in profit or loss. An impairment loss recognised for an asset in prior years is reversed if there has been a change in the estimates used to determine the recoverable amount. Gains and losses on disposals determined by comparing proceeds with carrying amount are recognised in profit or loss.

Depreciation. Land is not depreciated. Depreciation on other items of property, plant and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives:

	Years
Buildings	2-80
Plant and equipment	5-30
Transport	5-15
Other	3-7

The residual value of an asset is the estimated amount that the Group would currently obtain from disposal of the asset less the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life. The residual value of an asset is nil if the Group expects to use the asset until the end of its physical life. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Other intangible assets. The Group's intangible assets other than goodwill have definite useful lives and primarily include capitalised computer software, patents, trademarks and licences.

Acquired computer software licences, patents and trademarks are capitalised on the basis of the costs incurred to acquire and bring them to use.

Intangible assets are amortised using the straight-line method over their useful lives:

	Years
Patents	5-20
Licensed technology	1-18
Software licenses	1-7
Customer relationships and order backlog	2-5
Trademarks	5-10
Websites	2-10

If impaired, the carrying amount of intangible assets is written down to the higher of value in use and fair value less costs to sell.

Non-current assets held for sale. Non-current assets and disposal groups are classified in the consolidated statement of financial position as non-current assets held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

Financial assets. All financial assets of the Group fall into one measurement category: loans and receivables.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the statement of financial position date, which are classified as non-current assets. The Group's loans and receivables comprise trade and other receivables, other long-term receivables and cash and cash equivalents in the statement of financial position.

The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

3 Summary of Significant Accounting Policies (continued)

Trade and other receivables. Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in profit or loss within 'general and administrative expenses'. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against 'general and administrative expenses' in profit or loss.

Cash and cash equivalents. Cash and cash equivalents include cash on hand, deposits held at call with banks, and other short-term highly liquid investments with original maturities of three months or less or deposits with original maturity of more than three month which could be withdrawn on demand. Restricted balances are excluded from cash and cash equivalents for the purposes of the statement of cash flows. Balances restricted from being exchanged or used to settle a liability for at least twelve months after the statement of financial position date are included in other non-current assets.

Derecognition of financial assets. The Group derecognises financial assets when (a) the assets are redeemed or the rights to cash flows from the assets otherwise expire or (b) the Group has transferred the rights to the cash flows from the financial assets or entered into a qualifying pass-through arrangement while (i) also transferring substantially all the risks and rewards of ownership of the assets or (ii) neither transferring nor retaining substantially all risks and rewards of ownership but not retaining control. Control is retained if the counterparty does not have the practical ability to sell the asset in its entirety to an unrelated third party without needing to impose additional restrictions on the sale.

Financial liabilities. All financial liabilities of the Group fall into one measurement category: other financial liabilities, which include trade and other payables, borrowings and finance lease liabilities.

Trade and other payables. Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings. Borrowings are carried at amortised cost using the effective interest method.

Capitalisation of borrowing costs. Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial time to get ready for intended use or sale (qualifying assets) are capitalised as part of the costs of those assets, if the commencement date for capitalisation is on or after 1 January 2009.

Capitalisation of borrowing costs continues up to the date when the assets are substantially ready for their use or sale.

The Group capitalises borrowing costs that could have been avoided if it had not made capital expenditure on qualifying assets. Borrowing costs capitalised are calculated at the group's average funding cost (the weighted average interest cost is applied to the expenditures on the qualifying assets), except to the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset. Where this occurs, actual borrowing costs incurred less any investment income on the temporary investment of those borrowings are capitalised.

Derecognition of financial liabilities. The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire.

Inventories. Inventories are stated at the lower of cost and net realisable value. Cost of inventory is determined using the weighted average method. The cost of finished goods and work in progress comprises raw material, direct labour, other direct costs and related production overheads (based on normal operating capacity), borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less the cost of completion and selling expenses.

Advances issued. Advances issued are carried at cost less provision for impairment. An advance issued is classified as non-current when the goods or services relating to the advance issued are expected to be obtained after one year, or when the advance issued relates to an asset which will itself be classified as non-current upon initial recognition. If there is an indication that the assets, goods or services relating to an advance issued will not be received, the carrying value of the advance issued is written down accordingly and a corresponding impairment loss is recognised in profit or loss.

3 Summary of Significant Accounting Policies (continued)

Operating leases. Where the Group is a lessee in a lease which does not transfer substantially all the risks and rewards incidental to ownership from the lessor to the Group, the total lease payments are charged to profit or loss for the year on a straight-line basis over the lease term. The lease term is the non-cancellable period for which the lessee has contracted to lease the asset together with any further terms for which the lessee has the option to continue to lease the asset, with or without further payment, when at the inception of the lease it is reasonably certain that the lessee will exercise the option.

Finance lease liabilities. Where the Group is a lessee in a lease which transfers substantially all the risks and rewards incidental to ownership to the Group, the assets leased are capitalised in property, plant and equipment at the commencement of the lease at the lower of the fair value of the leased asset and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest cost is charged to the profit or loss over the lease period using the effective interest method. The assets acquired under finance leases are depreciated over their useful life or the shorter lease term if the Group is not reasonably certain that it will obtain ownership by the end of the lease term.

Income taxes. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the statement of financial position date in the countries where the company's subsidiaries and associates operate and generate taxable income, primarily the Russian legislation. The income tax charge/credit comprises current tax and deferred tax and is recognised in the profit or loss unless it relates to transactions that are recognised, in the same or a different period, directly in other comprehensive income or directly in equity.

Current tax is the amount expected to be paid to or recovered from the taxation authorities in respect of taxable profits or losses for the current and prior periods. Taxes, other than on income, are recorded within operating expenses.

Deferred income tax is provided using the balance sheet liability method for tax loss carry forwards and temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. In accordance with the initial recognition exemption, deferred taxes are not recorded for temporary differences on initial recognition of an asset or a liability in a transaction other than a business combination if the transaction, when initially recorded, affects neither accounting nor taxable profit. Deferred tax liabilities are not recorded for temporary differences on initial recognition of goodwill and subsequently for goodwill which is not deductible for tax purposes. Deferred tax balances are measured at tax rates enacted or substantively enacted at the statement of financial position date which are expected to apply to the period when the temporary differences will reverse or the tax loss carry forwards will be utilised. Deferred tax assets and liabilities are netted only within the individual companies of the Group. Deferred tax assets for deductible temporary differences and tax loss carry forwards are recorded only to the extent that it is probable that future taxable profit will be available against which the deductions can be utilised.

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the group and it is probable that the temporary difference will not reverse in the foreseeable future.

Value added tax. Output value added tax related to sales is payable to tax authorities on the earlier of (a) collection of the receivables from customers or (b) delivery of the goods or services to customers. Input VAT is generally recoverable against output VAT upon receipt of the VAT invoice. The tax authorities permit the settlement of VAT on a net basis. VAT related to sales and purchases is recognised in the statement of financial position on a gross basis and disclosed separately as an asset and liability. Where provision has been made for impairment of receivables, an impairment loss is recorded for the gross amount receivable, including VAT.

Provisions for liabilities and charges. Provisions, including provisions for environmental liabilities and asset retirement obligations are recognised when the Group has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small. Where the Group expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain.

Uncertain tax positions. Management assesses, based on its interpretation of the relevant tax legislation, that it is probable that certain tax positions taken by the Group would not be sustained, if challenged by the tax authorities. The assessment is based on the interpretation of law tax that have been enacted or substantively enacted by the end of the reporting period and any know court or other rulings on such issues. Liability for penalties, interest and taxes other than on income is recognised based on management's best estimate of the expenditure required to settle the obligations at the end of the reporting period.

3 Summary of Significant Accounting Policies (continued)

Pension and other post-employment benefits. Group companies operate unfunded post-employment benefits plans. Typically, defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

The liability recognised in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the statement of financial position date less the fair value of any plan assets, together with adjustments for unrecognised past service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains and losses are recognised immediately in the profit or loss as they arise.

Past service costs are recognised immediately in profit and loss, unless changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past service costs are amortised on a straight line basis over the vesting period.

Short-term employee benefits. Wages, salaries, contributions to the state pension, medical and social insurance funds, paid annual leave and sick leave, bonuses, and non-monetary benefits (such as health services and kindergarten services) are accrued in the year in which the associated services are rendered by the employees of the Group and are included within labour costs in operating expenses.

Share capital. Ordinary shares and non-redeemable preference shares with discretionary dividends are both classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Any excess of the fair value of consideration received over the par value of shares issued is presented as a share premium in equity.

Dividends. Dividends are recognised as a liability and deducted from equity at the statement of financial position date only if they are declared before or on the statement of financial position date. Dividends are disclosed when they are proposed before the statement of financial position date or proposed or declared after the statement of financial position date but before the financial statements are authorised for issue.

Revenue recognition. Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of value-added tax, returns and discounts and after eliminating sales within the Group. The Group recognises revenue when the amount of revenue can be reliably measured, risks and rewards of ownership of the goods have been transferred and it is probable that future economic benefits will flow to the entity. Sales of services are recognised in the accounting period in which the services are rendered, by reference to stage of completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided.

Interest income is recognised on a time-proportion basis using the effective interest method. When a receivable is impaired, the Group reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loans is recognised using the original effective interest rate.

Construction contracts. Contract costs are recognised as expenses in the period in which they are incurred.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable.

When the outcome of a construction contract can be estimated reliably and it is probable that the contract will be profitable, contract revenue is recognised over the period of the contract. When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Variations in contract work, claims and incentive payments are included in contract revenue to the extent that may have been agreed with the customer and are capable of being reliably measured.

3 Summary of Significant Accounting Policies (continued)

The Group uses the 'percentage-of-completion' method to determine the appropriate amount to recognise in a given period. The stage of completion is measured by reference to the contract costs incurred up to the statement of financial position date as a percentage of total estimated costs for each contract. Costs incurred in the year in connection with future activity on a contract are excluded from contract costs in determining the stage of completion. They are presented as inventories, prepayments or other assets, depending on their nature.

The Group presents as an asset the gross amount due from customers for contract work for all contracts in progress for which costs incurred plus recognised profits (less recognised losses) exceed progress billings. Progress billings not yet paid by customers and retentions are included within trade accounts receivable.

The Group presents as a liability the gross amount due to customers for contract work for all contracts in progress for which progress billings exceed costs incurred plus recognised profits (less recognised losses).

Earnings per share. Earnings per share are determined by dividing the profit or loss attributable to owners of the Company by the weighted average number of participating shares outstanding during the reporting year.

Offsetting. Financial assets and liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognised amounts, and there is an intention to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

Segment reporting. Operating segments are reported in a manner consistent with the internal reporting provided to the Group's chief operating decision maker. Segments with revenue, result or assets exceeding ten percent of the respective total amount for all segments are reported separately.

Changes in presentation. Where necessary, corresponding figures have been adjusted to conform to the presentation of the current year amounts.

4 Critical Accounting Estimates and Judgments in Applying Accounting Policies

The Group makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next reporting period. Estimates and judgements are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Management also makes certain judgements, apart from those involving estimations, in the process of applying the accounting policies.

Judgements that have the most significant effect on the amounts recognised in the consolidated financial statements and estimates that can cause a significant adjustment to the carrying amount of assets and liabilities within the next financial year include:

(a) Agreements for construction and delivery of pumping units for Purpe-Samotlor and Eastern Siberia Pacific Ocean oil pipelines

During the year ended 31 December 2010, the Group entered into a number of agreements for construction and delivery of oil-trunk pumping units and spare parts for the oil pipelines Purpe-Samotlor and Eastern Siberia Pacific Ocean, which are constructed to provide export of crude oil from Russia to the Asian Pacific markets, including Japan, China and Korea. Pumping units, which will be combined in pumping stations, constructed under these agreements, represent complex highly customised equipment consisting of unique components and parts. Under these agreements, the Group will also perform supervision of pumping units installation and pumping stations start-up process. Total budgeted revenue for these contracts at 31 December 2010 exceeds RR 12 billion. The contracts are expected to be executed during 2010-2013.

The Group applied percentage of completion method to the accounting for these contracts. Revenue for these contracts is recognised as the production and construction work progresses. In determining the stage of completion, the Group also considers work performed by subcontractors, involved by the Group into these projects.

Method of accounting used for these contracts places considerable importance on accurate estimates at completion as well as on the extent of progress towards completion. For the determination of the progress of the respective contract significant estimates include total contract costs, remaining cost to completion, contract risks and other judgments. Management of the respective operating divisions continually reviews all estimates involved in such construction contracts and adjusts them as necessary.

4 Critical Accounting Estimates and Judgments in Applying Accounting Policies (continued)

In accordance with Russian Civil Code and the terms of the respective agreements, in certain circumstances and where supply terms are not adhered to, the Group may be subject to penalties or rejection by the customer to accept the equipment. Management assesses such risk as remote and does not expect such conditions to result in a loss to the Group.

Provisions for warranty corresponding to sale of pumping units and spare parts are recorded to reflect the underlying risk to the Group in respect of guarantees given when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and reliable estimates can be made of the amount of the obligation.

For the year ended 31 December 2010, the Group recognised revenue in respect of these contracts of RR 3,494,235. This amount is included as part of revenue from construction contracts (Note 26). At 31 December 2010, payables due to customers (Note 21) include the amount of RR 5,598,531, representing net amount of advances received from customers of RR 9,092,766 (excluding VAT) and recognised revenue of RR 3,494,235, and advances paid to suppliers and subcontractors (Note 14) include the amount of RR 3,299,726 (including VAT), related to these contracts.

In accordance with internal management reports, which form the basis for the Group's segment reporting, these contracts relate to Industrial pumps segment.

(b) Assessment of construction revenue and receivables related to construction contracts

Under IAS 11, construction revenue is measured at the fair value of the consideration received or receivable. The amount of revenue and estimates should be revised as events occur and any uncertainties are resolved.

A variation is included in contract revenue when: it is probable that the customer will approve the variation and the amount of revenue arising from the variation; and the amount of revenue can be reliably measured. Because of the frequency and large number of disputes that arise on construction contracts and the length of time over which negotiations may stretch, the Group takes variations and claims into account only when they have actually been approved by the customer. In 2010, the Group recognised RR 121,532 of construction revenue based on the written confirmation by the customer to sign off the additional agreement to existing construction contract.

In addition, receivables related to construction contracts are subject to credit risk. In other words, although some revenue continues to be contractually bound, the customer can still refuse to pay or to pay in time. Where revenue has been validly recognised on a contract, but an uncertainty subsequently arises about the recoverability of the related amount due from the customer, any provision against the amount due is recognised as an expense.

(c) Presentation of inventory/net payable or receivable on construction contracts

The Group's construction contracts include substantial amounts of materials bought from customers and subsequently re-invoiced to customers together with the cost of construction services provided. Final settlements are usually made through offsetting the payables for these materials and related receivables and paying the resulting balance. The Group bears all risks and rewards on buying and using these materials. Therefore, management decided that revenues and costs related to these materials are to be recognised and presented in the profit or loss for the period on a gross basis and the inventories/net payable or receivable in the statement of financial position.

(d) Assessment of useful lives of property, plant and equipment

The estimation of the useful lives of items of property, plant and equipment is a matter of judgment based on the experience with similar assets. The future economic benefits embodied in the assets are consumed principally through use. However, other factors, such as technical or commercial obsolescence and wear and tear, often result in the diminution of the economic benefits embodied in the assets. Management assesses the remaining useful lives in accordance with the current technical conditions of the assets and estimated period during which the assets are expected to earn benefits for the Group. The following primary factors are considered: (a) expected usage of the assets; (b) expected physical wear and tear, which depends on operational factors and maintenance programme; and (h) technical or commercial obsolescence arising from changes in market conditions.

If the management's estimates on useful lives differ by 10%, the impact on depreciation for the year ended 31 December 2010 would be either increase or decrease by RR 36,115 (2009: RR 32,297).

4 Critical Accounting Estimates and Judgments in Applying Accounting Policies (continued)

(e) Estimated impairment of property, plant and equipment and goodwill

At 31 December 2010, the Group performed an impairment test of certain cash generating units. The recoverable amount of each CGU was determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering 5 years. The growth rates do not exceed the long-term average growth rate for the business sector of the economy in which the CGU operates. The discount rate used is pre-tax and reflects specific risks relating to the relevant CGUs. As a result of this test, the Group recognised an impairment of property, plant and equipment of HMS Household Pumps OJSC in amount of RR 19,288 (Note 7).

(f) Provision for pension obligations

The principal assumptions used in valuation of pension obligations are the discount rates used in determining the present value of post employment benefits, expected rate of return on plan assets, salaries at retirement for post-employment defined benefit plan (Note 19). The Group's estimates for pension obligations provisions are based on currently available information. Actual results may differ from the estimates, and the Group's estimates can be revised in the future, either negatively or positively. Provisions for pension obligations are periodically adjusted based on updated actuarial assumptions.

(g) Tax legislation

Tax, currency and customs legislation of those jurisdictions, where the Group companies operate, is subject to varying interpretations. Refer to Note 34.

(h) Related party transactions

In the normal course of business the Group enters into transactions with its related parties. IAS 39 requires initial recognition of financial instruments based on their fair values. Judgement is applied in determining if transactions are priced at market or non-market interest rates, where there is no active market for such transactions. The basis for such judgement is pricing for similar types of transactions with unrelated parties and effective interest rate analysis. Refer to Note 33.

(i) Deferred income tax asset recognition

The recognised deferred tax asset represents income taxes recoverable through future deductions from taxable profits and is recorded in the statement of financial position. Deferred income tax assets are recorded to the extent that realisation of the related tax benefit is probable. The future taxable profits and the amount of tax benefits that are probable in the future are based on medium term business plan prepared by management and extrapolated results thereafter. The business plan is based on management expectations that are believed to be reasonable under the circumstances.

5 Adoption of New or Revised Standards and Interpretations

Certain new standards and interpretations became effective for the Group from 1 January 2010:

IFRIC 12, Service Concession Arrangements (IFRIC 12 as adopted by the EU is effective for annual periods beginning on or after 30 March 2009, with early adoption permitted). The interpretation contains guidance on applying the existing standards by service providers in public-to-private service concession arrangements. IFRIC 17 is not relevant to the Group's operations.

IFRIC 15, Agreements for the Construction of Real Estate (effective for annual periods beginning on or after 1 January 2009; IFRIC 15 as adopted by the EU is effective for annual periods beginning after 31 December 2009, with early adoption permitted). The interpretation applies to the accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors, and provides guidance for determining whether agreements for the construction of real estate are within the scope of IAS 11 or IAS 18. It also provides criteria for determining when entities should recognise revenue on such transactions. IFRIC 15 is not relevant to the Group's operations because it does not have any agreements for construction of real estate.

IFRIC 16, Hedges of a Net Investment in a Foreign Operation (effective for annual periods beginning on or after 1 October 2008; IFRIC 16 as adopted by the EU is effective for annual periods beginning after 30 June 2009, with early adoption permitted). The interpretation explains which currency risk exposures are eligible for hedge accounting and states that translation from the functional currency to the presentation currency does not create an exposure to which hedge accounting could be applied. The IFRIC allows the hedging instrument to be held by any entity or entities within a group except the foreign operation that itself is being hedged. The interpretation also clarifies how the gain or loss recycled from the currency translation reserve to profit or loss is calculated on disposal of the hedged foreign operation. Reporting entities will apply IAS 39 to discontinue hedge accounting prospectively when their hedges do not meet the criteria for hedge accounting in IFRIC 16. IFRIC 16 did not have an impact on these consolidated financial statements as the Group does not apply hedge accounting.

IFRIC 17, Distributions of Non-Cash Assets to Owners (effective for annual periods beginning on or after 1 July 2009). The interpretation clarifies when and how distribution of non-cash assets as dividends to the owners should be recognised. An entity should measure a liability to distribute non-cash assets as a dividend to its owners at the fair value of the assets to be distributed. A gain or loss on disposal of the distributed non-cash assets should be recognised in profit or loss when the entity settles the dividend payable. IFRIC 17 is not relevant to the Group's operations because it does not distribute non-cash assets to owners.

IFRIC 18, Transfers of Assets from Customers (effective for annual periods beginning on or after 1 July 2009). The interpretation clarifies the accounting for transfers of assets from customers, namely, the circumstances in which the definition of an asset is met; the recognition of the asset and the measurement of its cost on initial recognition; the identification of the separately identifiable services (one or more services in exchange for the transferred asset); the recognition of revenue, and the accounting for transfers of cash from customers. IFRIC 18 did not have any impact on the Group's consolidated financial statements.

IAS 27, Consolidated and Separate Financial Statements (revised January 2008; effective for annual periods beginning on or after 1 July 2009). The revised IAS 27 requires an entity to attribute total comprehensive income to the owners of the parent and to the non-controlling interests (previously "minority interests") even if this results in the non-controlling interests having a deficit balance (the previous standard required the excess losses to be allocated to the owners of the parent in most cases). The revised standard specifies that changes in a parent's ownership interest in a subsidiary that do not result in the loss of control must be accounted for as equity transactions. It also specifies how an entity should measure any gain or loss arising on the loss of control of a subsidiary. At the date when control is lost, any investment retained in the former subsidiary has to be measured at its fair value. The revised IAS 27 has been applied by the Group. As a result of this application, there is no material impact on these consolidated financial statements.

IFRS 3, Business Combinations (revised January 2008; effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 July 2009). The revised IFRS 3 allows entities to choose to measure non-controlling interests using the existing IFRS 3 method (proportionate share of the acquiree's identifiable net assets) or at fair value. The revised IFRS 3 is more detailed in providing guidance on the application of the purchase method to business combinations. The requirement to measure at fair value every asset and liability at each step in a step acquisition for the purposes of calculating a portion of goodwill has been removed. Instead, in a business combination achieved in stages, the acquirer has to remeasure its previously held equity interest in the acquiree at its acquisition-date fair value and recognise the resulting gain or loss, if any, in profit or loss for the year. Acquisition-related costs are accounted for separately from the business combination and therefore recognised as expenses rather than included in goodwill. An acquirer has to recognise a liability for any contingent purchase consideration at the acquisition date. Changes in the value of that liability after the acquisition date are recognised in accordance with other applicable IFRSs, as appropriate, rather than by adjusting goodwill. The revised IFRS 3 brings into its scope business combinations involving only mutual entities and business combinations achieved by contract alone. The revised IFRS 3 has been applied by the Group prospectively and therefore there is no impact on prior periods in these consolidated financial statements.

5 Adoption of New and Revised Standards and Interpretations (continued)

Group Cash-settled Share-based Payment Transactions – Amendments to IFRS 2, Share-based Payment (effective for annual periods beginning on or after 1 January 2010). The amendments provide a clear basis to determine the classification of share-based payment awards in both consolidated and separate financial statements. The amendments incorporate into the standard the guidance in IFRIC 8 and IFRIC 11, which are withdrawn. The amendments expand on the guidance given in IFRIC 11 to address plans that were previously not considered in the interpretation. The amendments also clarify the defined terms in the Appendix to the standard. These amendments did not have any material effect on the Group's consolidated financial statements.

Eligible Hedged Items – Amendment to IAS 39, Financial Instruments: Recognition and Measurement (effective with retrospective application for annual periods beginning on or after 1 July 2009). The amendment clarifies how the principles that determine whether a hedged risk or portion of cash flows is eligible for designation should be applied in particular situations. The amendment did not have any impact on the Group's consolidated financial statements as the Group does not apply hedge accounting.

Embedded Derivatives - Amendments to IFRIC 9 and IAS 39 (effective for annual periods ending on or after 30 June 2009; amendments to IFRIC 9 and IAS 39 as adopted by the EU are effective for annual periods beginning after 31 December 2009, with early adoption permitted). The amendments clarify that on reclassification of a financial asset out of the 'at fair value through profit or loss' category, all embedded derivatives have to be assessed and, if necessary, separately accounted for. The amendments did not have a material impact on these consolidated financial statements.

IFRS 1, First-time Adoption of International Financial Reporting Standards (following an amendment in December 2008, effective for the first IFRS financial statements for a period beginning on or after 1 July 2009). The revised IFRS 1 retains the substance of its previous version but within a changed structure in order to make it easier for the reader to understand and to better accommodate future changes. The Group concluded that the revised standard does not have any effect on its consolidated financial statements.

Additional Exemptions for First-time Adopters – Amendments to IFRS 1, First-time adoption of IFRS (effective for annual periods beginning on or after 1 January 2010). The amendments exempt entities using the full cost method from retrospective application of IFRSs for oil and gas assets and also exempt entities with existing leasing contracts from reassessing the classification of those contracts in accordance with IFRIC 4, "Determining Whether an Arrangement Contains a Lease" when the application of their national accounting requirements produced the same result. The amendments did not have any impact on the Group's consolidated financial statements.

Improvements to International Financial Reporting Standards (issued in April 2009; amendments to IFRS 2, IAS 38, IFRIC 9 and IFRIC 16 are effective for annual periods beginning on or after 1 July 2009; amendments to IFRS 5, IFRS 8, IAS 1, IAS 7, IAS 17, IAS 36 and IAS 39 are effective for annual periods beginning on or after 1 January 2010). The improvements consist of a mixture of substantive changes and clarifications in the following standards and interpretations: clarification that contributions of businesses in common control transactions and formation of joint ventures are not within the scope of IFRS 2; clarification of disclosure requirements set by IFRS 5 and other standards for non-current assets (or disposal groups) classified as held for sale or discontinued operations; requiring to report a measure of total assets and liabilities for each reportable segment under IFRS 8 only if such amounts are regularly provided to the chief operating decision maker; amending IAS 1 to allow classification of certain liabilities settled by entity's own equity instruments as non-current; changing IAS 7 such that only expenditures that result in a recognised asset are eligible for classification as investing activities; allowing classification of certain long-term land leases as finance leases under IAS 17 even without transfer of ownership of the land at the end of the lease; providing additional guidance in IAS 18 for determining whether an entity acts as a principal or an agent; clarification in IAS 36 that a cash generating unit shall not be larger than an operating segment before aggregation; supplementing IAS 38 regarding measurement of fair value of intangible assets acquired in a business combination; amending IAS 39 (i) to include in its scope option contracts that could result in business combinations, (ii) to clarify the period of reclassifying gains or losses on cash flow hedging instruments from equity to profit or loss for the year and (iii) to state that a prepayment option is closely related to the host contract if upon exercise the borrower reimburses economic loss of the lender; amending IFRIC 9 to state that embedded derivatives in contracts acquired in common control transactions and formation of joint ventures are not within its scope; and removing the restriction in IFRIC 16 that hedging instruments may not be held by the foreign operation that itself is being hedged.

In addition, the amendments clarifying classification as held for sale under IFRS 5 in case of a loss of control over a subsidiary published as part of the *Annual Improvements to International Financial Reporting Standards*, which were issued in May 2008, are effective for annual periods beginning on or after 1 July 2009. The Group concluded that the amendments did not have any material effect on its consolidated financial statements.

6 New Accounting Pronouncements

Certain new standards and interpretations have been issued that are mandatory for the annual periods beginning on or after 1 January 2011 and which the Group has not early adopted.

(i) Adopted by the European Union

Classification of Rights Issues – Amendment to IAS 32 (issued on 8 October 2009; effective for annual periods beginning on or after 1 February 2010). The amendment exempts certain rights issues of shares with proceeds denominated in foreign currencies from classification as financial derivatives. The Group concluded that this amendment does not have any effect on its consolidated financial statements.

Amendment to IAS 24, Related Party Disclosures (issued in November 2009 and effective for annual periods beginning on or after 1 January 2011). IAS 24 was revised in 2009 by: (a) simplifying the definition of a related party, clarifying its intended meaning and eliminating inconsistencies; and by (b) providing a partial exemption from the disclosure requirements for government-related entities. The Group is currently assessing the impact of the amendment on its consolidated financial statements.

IFRIC 19, Extinguishing Financial Liabilities with Equity Instruments (effective for annual periods beginning on or after 1 July 2010). This IFRIC clarifies the accounting when an entity renegotiates the terms of its debt with the result that the liability is extinguished through the debtor issuing its own equity instruments to the creditor. A gain or loss is recognised in profit or loss based on the fair value of the equity instruments compared to the carrying amount of the debt. The IFRIC is not expected to have an impact on the Group's consolidated financial statements.

Prepayments of a Minimum Funding Requirement – Amendment to IFRIC 14 (effective for annual periods beginning on or after 1 January 2011). This amendment will have a limited impact as it applies only to companies that are required to make minimum funding contributions to a defined benefit pension plan. It removes an unintended consequence of IFRIC 14 related to voluntary pension prepayments when there is a minimum funding requirement. The Group does not expect the amendment to have any material effect on its consolidated financial statements.

Limited exemption from comparative IFRS 7 disclosures for first-time adopters – Amendment to IFRS 1 (effective for annual periods beginning on or after 1 July 2010). Existing IFRS preparers were granted relief from presenting comparative information for the new disclosures required by the March 2009 amendments to IFRS 7, *Financial Instruments: Disclosures*. This amendment to IFRS 1 provides first-time adopters with the same transition provisions as included in the amendment to IFRS 7. The Group concluded that this amendment does not have any effect on its consolidated financial statements.

(ii) Not adopted by the European Union

IFRS 9, Financial Instruments Part 1: Classification and Measurement. IFRS 9 was issued in November 2009 and replaces those parts of IAS 39 relating to the classification and measurement of financial assets. Key features are as follows:

- Financial assets are required to be classified into two measurement categories: those to be measured subsequently at fair value, and those to be measured subsequently at amortised cost. The decision is to be made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument.
- An instrument is subsequently measured at amortised cost only if it is a debt instrument and both (i) the objective of the entity's business model is to hold the asset to collect the contractual cash flows, and (ii) the asset's contractual cash flows represent only payments of principal and interest (that is, it has only "basic loan features"). All other debt instruments are to be measured at fair value through profit or loss.
- All equity instruments are to be measured subsequently at fair value. Equity instruments that are held for trading will be measured at fair value through profit or loss. For all other equity investments, an irrevocable election can be made at initial recognition, to recognise unrealised and realised fair value gains and losses through other comprehensive income rather than profit or loss. There is to be no recycling of fair value gains and losses to profit or loss. This election may be made on an instrument-by-instrument basis. Dividends are to be presented in profit or loss, as long as they represent a return on investment.

While adoption of IFRS 9 is mandatory from 1 January 2013, earlier adoption is permitted. The Group is considering the implications of the standard, the impact on the Group and the timing of its adoption by the Group.

6 New Accounting Pronouncements (continued)

Disclosures – Transfers of Financial Assets – Amendments to IFRS 7 (issued in October 2010 and effective for annual periods beginning on or after 1 July 2011). The amendment requires additional disclosures in respect of risk exposures arising from transferred financial assets. The amendment includes a requirement to disclose by class of asset the nature, carrying amount and a description of the risks and rewards of financial assets that have been transferred to another party yet remain on the entity's balance sheet. Disclosures are also required to enable a user to understand the amount of any associated liabilities, and the relationship between the financial assets and associated liabilities. Where financial assets have been derecognised but the entity is still exposed to certain risks and rewards associated with the transferred asset, additional disclosure is required to enable the effects of those risks to be understood. The amendment is not expected to have any impact on the Group's financial statements.

Recovery of Underlying Assets – Amendments to IAS 12 (issued in December 2010 and effective for annual periods beginning on or after 1 January 2012). The amendments relate to measuring deferred tax liabilities and deferred tax assets relating to investment property measured using the fair value model in IAS 40, Investment Property and introduce a rebuttable presumption that an investment property is recovered entirely through sale. This presumption is rebutted if the investment property is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. SIC-21, Income Taxes – Recovery of Revalued Non-Depreciable Assets which addresses similar issues involving non-depreciable assets measured using the revaluation model in IAS 16, Property, Plant and Equipment was incorporated into IAS 12 after excluding guidance regarding investment property measured at fair value. The Group does not expect the amendments to have any material effect on its consolidated financial statements.

Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters – Amendments to IFRS 1 (issued in December 2010 and effective for annual periods beginning on or after 1 July 2011). The amendment regarding severe hyperinflation creates an additional exemption when an entity that has been subject to severe hyperinflation resumes presenting or presents for the first time, financial statements in accordance with IFRSs. The exemption allows an entity to elect to measure certain assets and liabilities at fair value; and to use that fair value as the deemed cost in the opening IFRS statement of financial position. The IASB has also amended IFRS 1 to eliminate references to fixed dates for one exception and one exemption, both dealing with financial assets and liabilities. The first change requires first-time adopters to apply the derecognition requirements of IFRS prospectively from the date of transition, rather than from 1 January 2004. The second amendment relates to financial assets or liabilities at fair value on initial recognition where the fair value is established through valuation techniques in the absence of an active market and allows the guidance to be applied prospectively from the date of transition to IFRS rather than from 25 October 2002 or 1 January 2004. This means that a first-time adopter does not need to determine the fair value of financial assets and liabilities for periods prior to the date of transition. IFRS 9 has also been amended to reflect these changes. The Group does not expect the amendments to have any effect on its consolidated financial statements.

Improvements to International Financial Reporting Standards (issued in May 2010 and effective from 1 January 2011). The improvements consist of a mixture of substantive changes and clarifications in the following standards and interpretations: IFRS 1 was amended (i) to allow previous GAAP carrying value to be used as deemed cost of an item of property, plant and equipment or an intangible asset if that item was used in operations subject to rate regulation, (ii) to allow an event driven revaluation to be used as deemed cost of property, plant and equipment even if the revaluation occurs during a period covered by the first IFRS financial statements and (iii) to require a first-time adopter to explain changes in accounting policies or in the IFRS 1 exemptions between its first IFRS interim report and its first IFRS financial statements; IFRS 3 was amended (i) to require measurement at fair value (unless another measurement basis is required by other IFRS standards) of non-controlling interests that are not present ownership interest or do not entitle the holder to a proportionate share of net assets in the event of liquidation, (ii) to provide guidance on acquiree's share-based payment arrangements that were not replaced or were voluntarily replaced as a result of a business combination and (iii) to clarify that the contingent considerations from business combinations that occurred before the effective date of revised IFRS 3 (issued in January 2008) will be accounted for in accordance with the guidance in the previous version of IFRS 3; IFRS 7 was amended to clarify certain disclosure requirements, in particular (i) by adding an explicit emphasis on the interaction between qualitative and quantitative disclosures about the nature and extent of financial risks, (ii) by removing the requirement to disclose carrying amount of renegotiated financial assets that would otherwise be past due or impaired, (iii) by replacing the requirement to disclose fair value of collateral by a more general requirement to disclose its financial effect, and (iv) by clarifying that an entity should disclose the amount of foreclosed collateral held at the reporting date and not the amount obtained during the reporting period; IAS 1 was amended to clarify that the components of the statement of changes in equity include profit or loss, other comprehensive income, total comprehensive income and transactions with owners and that an analysis of other comprehensive income by item may be presented in the notes; IAS 27 was amended by clarifying the transition rules for amendments to IAS 21, 28 and 31 made by the revised IAS 27 (as amended in January 2008); IAS 34 was amended to add additional examples of significant events and transactions requiring disclosure in a condensed interim financial report, including transfers between the levels of fair value hierarchy, changes in classification of financial assets or changes in business or economic environment that affect the fair values of the entity's financial instruments; and IFRIC 13 was amended to clarify measurement of fair value of award credits. The Group is currently assessing the impact of the amendments on its consolidated financial statements.

6 New Accounting Pronouncements (continued)

Unless otherwise described above, the new standards and interpretations are not expected to significantly affect the Group's consolidated financial statements.

7 Property, Plant and Equipment

Property, plant and equipment and related accumulated depreciation consist of the following:

	Land	Buildings	Plant and equipment	Transport	Other	Construction in progress	Total
Cost	125,158	2,263,606	1,708,552	162,978	167,508	260,847	4,688,649
Accumulated depreciation	-	(153,191)	(462,575)	(70,206)	(74,304)	-	(760,276)
Carrying amount at 1 January 2009	125,158	2,110,415	1,245,977	92,772	93,204	260,847	3,928,373

Disposals	-	(8,205)	(9,389)	(2,048)	(13,786)	(12,014)	(45,442)
Depreciation	-	(106,230)	(178,524)	(24,524)	(51,868)	-	(361,146)
Translation to presentation currency	505	(1,594)	335	(61)	20	(2,995)	(3,790)
Cost	155,003	3,811,800	2,137,494	206,569	334,025	665,868	7,310,759
Accumulated depreciation and impairment	-	(337,928)	(780,711)	(104,461)	(138,985)	-	(1,362,085)
Carrying amount at 31 December 2010	155,003	3,473,872	1,356,783	102,108	195,040	665,868	5,948,674

At 31 December 2010, the Group's property, plant and equipment for a total of RR 496,930 had been pledged as security for certain borrowings (31 December 2009: RR 1,009,149) (Note 17).

Construction-in-progress includes advances for capital expenditures for a total of RR 94,222 at 31 December 2010 (31 December 2009: RR 49,843).

At 31 December 2010, the Group had contractual commitments for the purchase of components for construction of property, plant and equipment for RR 105,777 (31 December 2009: RR 33,168).

Due to impairment indicators, which arose as a result of the economic crisis, occurred at the end of 2009 and during 2010 the impairment test was performed for certain cash-generating units.

The recoverable amount of each CGU was determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below. The growth rates do not exceed the long-term average growth rate for the business sector of the economy in which the CGU operates.

7 Property, Plant and Equipment (continued)

Based on the results of impairment tests the Group recognised an impairment of property, plant and equipment of HMS Household Pumps OJSC in amount of RR 19,288 at 31 December 2010 and for the year then ended (at 31 December 2009 and for the year then ended: RR 10,558 for property, plant and equipment and RR 3,290 for other intangible assets related to HMS Household Pumps OJSC).

Assumptions used for value-in-use calculations to which the recoverable amount is most sensitive were:

	31 December 2010	31 December 2009
Growth rate beyond five years	3%	3%
Pre-tax discount rate	From 14% to 19%	From 16% to 22%

Management determined budgeted gross margin based on past performance and its market expectations. The weighted average growth rates used are consistent with the forecasts included in management reports. The discount rates used are pre-tax and reflect specific risks relating to the relevant CGUs.

8 Other Intangible Assets

	Patents	Licensed technology	Acquired software licenses	Customer relationships and order backlog	Trademarks	Websites	Total
Cost	12,576	13,097	18,429	7,595	14,528	70	66,295

Disposals	-	(519)	(1,578)	-	(8,774)	-	(10,871)
Amortisation	(2,185)	(5,733)	(11,660)	(61,582)	(7,328)	(142)	(88,630)
Translation to presentation currency	(75)	24	(89)	-	129	-	(11)
Cost	9,464	25,064	54,111	275,355	39,910	1,202	405,106
Accumulated amortisation and impairment	(3,273)	(7,314)	(18,167)	(60,971)	(5,037)	(188)	(94,950)
Carrying amount at 31 December 2010	6,191	17,750	35,944	214,384	34,873	1,014	310,156

9 Goodwill

Movements in goodwill on acquisition of the subsidiaries:

	2010	2009
Gross book value at 1 January	423,990	306,682
Accumulated impairment at 1 January	(116,998)	-
Carrying amount at 1 January	306,992	306,682
Acquisitions of subsidiaries (Note 10)	1,481,442	117,308
Disposals of subsidiaries (Note 10)	(4,519)	-
Impairment of goodwill	-	(116,998)
Gross book value	1,900,913	423,990
Accumulated impairment losses	(116,998)	(116,998)
Carrying amount at 31 December	1,783,915	306,992

Goodwill allocation to CGUs or groups of CGUs is as follows:

	31 December 2010	31 December 2009
EPC segment (goodwill acquired in acquisition of Giprotyumenneftegaz OJSC)	1,481,442	-
EPF "SIBNA" Inc. OJSC	117,308	117,308
Trest Sibkomplektmontazhnaladka OJSC	95,691	95,691
Institute Rostovskiy Vodokanalproekt OJSC	72,717	72,717
Tomskgazstroy OJSC	16,757	16,757
Gydromash-Industria LLC	-	4,519
Total carrying amount of goodwill	1,783,915	306,992

The recoverable amount of each CGU was determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below. The growth rates do not exceed the long-term average growth rate for the business sector of the economy in which the CGU operates.

Based on the results of these calculations the Group concluded that no impairment charge was required at 31 December 2010.

Assumptions used for value-in-use calculations to which the recoverable amount is most sensitive were:

	31 December 2010	31 December 2009
Growth rate beyond five years	3%	3%
Pre-tax discount rate	From 14% to 19%	From 16% to 22%

Management determined budgeted gross margin based on past performance and its market expectations. The weighted average growth rates used are consistent with the forecasts included in management reports. The discount rates used are pre-tax and reflect specific risks relating to the relevant CGUs.

As a result of impairment tests performed at 31 December 2009 an impairment loss in relation to Trest Sibkomplektmontazhnaladka OJSC (RR 94,881) and Institute Rostovskiy Vodokanalproekt OJSC ("IRVKP") (RR 22,117) was identified and recognised in consolidated financial statements of the Group for the year ended 31 December 2009.

10 Business Combinations

Acquisition of Giprotymenneftegaz OJSC

In June 2010, the Group acquired 51% of ordinary shares in Giprotymenneftegaz OJSC ("GTNG") for RR 2,467,330 paid in cash. Based on the acquired entity's share capital structure, 51% of ordinary shares represented the effective interest of 38.26% of total equity of GTNG.

The acquired entity's activity is rendering design and engineering services for oil and gas companies located mainly in Tyumen Region. GTNG is the leading design and engineering institute servicing the oil and gas industry in Russia. This acquisition significantly enhanced the Group's engineering, procurement and construction segment allowing the Group to extend the range of services provided to oil and gas industry.

The acquired company contributed revenue of RR 1,380,664 and profit after income tax of RR 122,622 to the Group for the period from the date of acquisition to 31 December 2010. Had the acquisition occurred on 1 January 2010, the revenue from the acquired business would have been RR 2,203,945 and profit after income tax would have been RR 134,707 for the year ended 31 December 2010.

This acquisition was accounted for using the acquisition method. Non-controlling interest was measured at its respective share in the acquired entity's identifiable net assets at the date of acquisition.

At the time of acquisition, the Group determined the fair values of identifiable assets, liabilities and contingent liabilities of the acquired company at the date of acquisition on a provisional basis and reported the provisional results of acquisition in the unaudited consolidated condensed interim financial information for the nine months ended 30 September 2010. The purchase price allocation was finalised during the three months ended 31 December 2010 and as such the final purchase price allocation has been accounted for retroactively from the date of acquisition. The final purchase price allocation for the acquisition is as follows:

	IFRS carrying amounts immediately before the business combination	Provisional value at the date of acquisition	Final value at the date of acquisition
Property, plant and equipment	1,398,104	1,547,154	1,564,902
Intangible assets	4,890	38,955	314,309
Other long-term receivables from the Group	402,888	402,888	402,888
Inventories	28,897	28,897	28,897
Trade and other receivables	756,309	756,309	732,162
Advance payment for investment to the Group's subsidiary	428,420	428,420	428,420
Cash and cash equivalents	127,873	127,873	127,873
Deferred tax liability	(193,359)	(229,982)	(288,839)
Pension liability – non-current portion	(70,820)	(109,745)	(109,745)
Trade and other payables	(561,199)	(561,199)	(535,856)
Pension liability – current portion	(10,467)	(10,467)	(10,467)
Other taxes payable	(77,641)	(77,641)	(77,641)
Carrying value of net assets/ Fair value of net assets	2,233,895	2,341,462	2,576,903
Less: Non-controlling interest	-	(1,445,651)	(1,591,015)
Fair value of acquired interest in net assets		895,811	985,888
Goodwill	-	1,571,519	1,481,442
Total purchase consideration	-	2,467,330	2,467,330
Less: cash and cash equivalents of subsidiaries acquired	-	(127,873)	(127,873)
Outflow of cash and cash equivalents on acquisition	-	2,339,457	2,339,457

The goodwill is primarily attributable to the unique expertise and experience of the acquiree, to profitability of the acquired business, as well as to synergy expected to be realised in relation to the Group's servicing of oil and gas industry.

10 Business Combinations (continued)

Acquisition of EPF “SIBNA”

In June 2009, the Group acquired control over EPF “SIBNA” Inc. OJSC by increasing its share from 29.9% to 76.7% for purchase consideration of RR 247,896, paid in cash. The acquired entity’s activity is the sales and repair oil and gas equipment, design of instrumentation technology. The acquired company contributed revenue of RR 108,799 and profit after income tax of RR 16,365 to the Group for the period from the date of acquisition to 31 December 2009. Had the acquisition occurred on 1 January 2009, the revenue from the acquired business would have been RR 176,596, and profit after income tax would have been RR 18,645 for the year ended 31 December 2009.

The summary of assets acquired and liabilities assumed are as follows:

	Fair value
Property, plant and equipment	131,047
Intangible assets	2,390
Other long-term receivables	1,186
Inventories	62,414
Trade and other receivables	30,785
Cash and cash equivalents	8,090
Deferred tax liability	(16,445)
Pension liability	(2,724)
Trade and other payable	(9,946)
Pension liability	(494)
Other taxes payable	(3,937)
Fair value of net assets	202,366
Less: Minority interest	(9,335)
Less: Fair value of the interest in associate previously held	(62,443)
Fair value of acquired interest in net assets	130,588
Goodwill	117,308
Total purchase consideration	247,896
Less: cash and cash equivalents of subsidiaries acquired	(8,090)
Outflow of cash and cash equivalents on acquisition	239,806

The goodwill is primarily attributable to the profitability of the acquired businesses, the significant synergies and combined costs savings expected to arise.

The valuation of identifiable tangible and intangible assets was performed by an independent professional appraiser.

The acquired entity did not prepare IFRS financial statements prior to the acquisition. Management believes that determination of IFRS carrying amounts immediately before the acquisition is impractical.

Disposal of controlling interest in Hydromash-Industria LLC

In June 2010, the Group sold its 100% share in Hydromash-Industria LLC for a cash consideration of RR 7,475. Loss on disposal of this investment, amounting to RR 4,360, was included in the consolidated statement of comprehensive income as other operating expenses.

In June 2010, the Group acquired an additional 2.40% interest in HMS Pumps OJSC (formerly Livhydomash OJSC) for RR 7,945 paid in cash. As a result of this transaction, the Group increased its ownership interest in HMS Pumps OJSC from 95.83% to 98.23% decreasing the non-controlling interest by RR 16,546.

In August 2010, the Group acquired an additional 1.61% interest in HMS Neftemash OJSC (formerly Neftemash OJSC) for RR 119,645, paid in cash. As a result of this transaction, the Group increased its ownership interest in HMS Neftemash OJSC from 80.44% to 82.05% decreasing the non-controlling interest by RR 119,187. As a result of the acquisition of an additional interest in HMS Neftemash OJSC, the Group increased its effective ownership interest in Nizhnevartovskremservis CJSC from 80.44% to 82.05% decreasing the non-controlling interest by RR 4,721, the Group increased its effective ownership interest in EPF "SIBNA" Inc. OJSC from 76.73% to 78.26% decreasing the non-controlling interest by RR 3,348 and in Livnynasos OJSC from 80.36% to 82.04% decreasing the non-controlling interest by RR 9,525.

In September 2010, the Group acquired an additional 7.62% interest in GTNG for RR 417,982, paid in cash. As a result of this transaction, the Group increased its ownership interest in GTNG from 38.26% to 45.88% decreasing the non-controlling interest by RR 432,901. As a result of this transaction, the Group increased its ownership interest in SKMN from 79.63% to 82.14% decreasing the non-controlling interest by RR 9,483.

In November 2010, the Group acquired an additional 39.78% interest in HMS Household Pumps OJSC (formerly Electrodivigatel OJSC) for RR 1,975 paid in cash. As a result of this transaction, the Group increased its ownership interest in HMS Household Pumps OJSC from 56.89% to 96.67% increasing the non-controlling interest by RR 10,145.

In November 2010, the Group acquired an additional 1.77% interest in HMS Pumps OJSC for RR 500 paid in cash. As a result of this transaction, the Group increased its ownership interest in HMS Pumps OJSC from 98.23% to 100% decreasing the non-controlling interest by RR 9,595.

In December 2010, the Group acquired an additional 17.95% interest in HMS Neftemash OJSC for RR 612, paid in cash. As a result of this transaction, the Group increased its ownership interest in HMS Neftemash OJSC from 82.05% to 100% decreasing the non-controlling interest by RR 41,166. As a result of the acquisition of an additional interest in HMS Neftemash OJSC, the Group increased its effective ownership interest in Nizhnevartovskremservis CJSC from 82.05% to 100% decreasing the non-controlling interest by RR 60,532, the Group increased its effective ownership interest in EPF "SIBNA" Inc. OJSC from 78.26% to 95.39% decreasing the non-controlling interest by RR 5,276 and in Livnynasos OJSC from 82.04% to 100.00% decreasing the non-controlling interest by RR 70,936.

In December 2010, the Group acquired an additional 20.62% interest in HYDROMASHINPROM CJSC for RR 7 paid in cash. As a result of this transaction, the Group increased its ownership interest in HYDROMASHINPROM CJSC from 61.68% to 82.30% increasing the non-controlling interest by RR 59,410.

For the year ended 31 December 2010, other transactions with non-controlling interest resulted in the decrease of non-controlling interest by RR 3,568.

In January 2009, the Group acquired an additional 1.4% interest in SKMN for RR 1,900, paid in cash. As a result of this transaction, the Group increased its ownership interest in SKMN from 98.6% to 100% decreasing the non-controlling interest by RR 2,713.

During 2009, in a series of transactions the Group acquired an additional interest 15.89% in Tomskgazstroy OJSC for RR 144,296 paid in cash. As a result of these transactions, the Group increased its ownership interest in Tomskgazstroy OJSC from 62.01% to 77.90% decreasing the non-controlling interest by RR 59,083.

In February 2009, the Group acquired an additional 0.01% interest in Nizhnevartovskremservice CJSC ("NRS") for RR 24 paid in cash. In June 2009, the Group transferred 19.84% interest in NRS from HYDROMASHSERVICE CJSC to Neftemash OJSC. As a result of these transactions, the Group decreased its ownership interest in NRS from 100% to 80.16% increasing the non-controlling interest by RR 55,029.

10 Business Combinations (continued)

In March 2009, the Group acquired an additional 10.36% interest in Livnynasos OJSC for RR 62,086, paid in cash. As a result of this transaction, the Group increased its ownership interest in Livnynasos OJSC from 70.00% to 80.36% decreasing the non-controlling interest by RR 39,885.

In August 2009, the Group acquired an additional 0.31% interest in Electrodvigatel OJSC for RR 26, paid in cash. As a result of this transaction, the Group increased its ownership interest in Electrodvigatel OJSC from 56.58% to 56.89% decreasing the non-controlling interest by RR 11.

In September 2009, the Group transferred its 99.53% interest in SPA Gydromash CJSC from HYDROMASHSERVICE CJSC to Nasosenergomash OJSC. As a result of this transaction, the Group decreased its ownership interest in SPA Gydromash CJSC from 99.53% to 82.89% increasing the non-controlling interest by RR 22,327.

In September 2009, the Group acquired an additional 0.28% interest in Nasosenergomash OJSC for RR 467, paid in cash. As a result of this transaction, the Group increased its ownership interest in Nasosenergomash OJSC from 83.00% to 83.28% decreasing the non-controlling interest by RR 2,514.

In 2009, the Group transferred interest in Hydraulic Machines and Systems Management LLC between companies of the Group. As a result of these transactions, the Group increased its ownership interest in Hydraulic Machines and Systems Management LLC from 98.1% to 98.9% and decreased the non-controlling interest by RR 2,305.

11 Investments in Associates

In June 2009, the Group increased its nominal interest in Dimitrovgradkhimmash OJSC by 10% for RR 122,756 paid in cash. The Group's share within associated net assets at acquisition date was RR 76,820.

In February 2009, one of the Group's subsidiaries – IRVKP disposed of its 35.29% share in Vodokanalproektirovanie LLC through the return of capital contribution previously made by property, plant and equipment.

Investments in associates at 31 December 2010 include goodwill of RR 113,195 (31 December 2009: RR 113,195).

The Group's investments in associates are as follows:

	2010	2009
Carrying amount at 1 January	507,293	449,848
Cost of acquisition of associates	-	122,756
Cost of disposal of associates	-	(11,031)
Reclassification due to acquisition of controlling interest	-	(62,443)
Dividends	(16,800)	(10,313)
Share of after tax results of associates	15,108	17,193
Translation to presentation currency	1,540	1,283
Carrying amount at 31 December	507,141	507,293

At 31 December 2010, the Group's interest in associates and total financial information including assets, liabilities, revenue and gains and losses are as follows:

Name of associate	Total assets	Total liabilities	Revenue	Profit/(loss) after tax	Interest in associate	Location
Dimitrovgradkhimmash OJSC	1,119,608	340,956	1,126,062	44,319	40.00%	Russian Federation
VNIIAEN OJSC	208,548	33,713	67,483	(5,553)	47.18%	Ukraine

At 31 December 2009, the Group's interest in associates and total financial information including assets, liabilities, revenue and gains and losses are as follows:

Name of associate	Total assets	Total liabilities	Revenue	Profit/(loss) after tax	Interest in associate	Location
Dimitrovgradkhimmash OJSC	1,034,601	258,265	910,840	77,297	40.00%	Russian Federation
VNIIAEN OJSC	198,571	21,075	76,404	(14,224)	47.18%	Ukraine

12 Cash and Cash Equivalents

Cash and cash equivalents comprise of the following:

	31 December 2010	31 December 2009
Cash on hand	1,322	723
RR denominated balances with banks	234,549	268,532
Foreign currency denominated balances with banks	26,817	107,088
RR denominated bank deposits	87,220	381,044
Other cash equivalents	1,178	740
Total cash and cash equivalents	351,086	758,127

At 31 December 2010, the closing balance of short-term bank deposits comprised short-term bank deposits in three banks with 1.6-14.0% interest rate (31 December 2009: 1.0-13.0% – six banks).

Restricted cash

Restricted cash of RR 4,978 (31 December 2009: RR 905) represents minimum balances for settlement and corporate plastic cards accounts.

13 Inventories

	31 December 2010	31 December 2009
Raw materials and supplies	1,088,447	951,228
Inventory for implementation of construction contracts	482,978	1,072,281
Work in progress	726,119	414,879
Finished goods and goods for resale	490,605	838,670
Other inventories	173,499	127,087
Provision for obsolete inventories	(120,903)	(224,501)
Total inventories	2,840,745	3,179,644

At 31 December 2010, inventories of RR 454,241 were pledged as collateral for certain borrowings (31 December 2009: RR 527,890) (Note 17).

The cost of inventories recognised as expense during the period and included in cost of sales is disclosed in Note 27.

14 Trade and Other Receivables and Other Financial Assets

	31 December 2010	31 December 2009
Trade receivables	3,096,779	1,507,542
Less: provision for impairment of trade receivables	(91,980)	(111,184)
Short-term loans issued	3,011	4,727
Bank promissory notes receivable	5,389	3,533
Bank deposits	47,534	24,518
Promissory notes receivable	-	2,706
Other receivables	68,847	80,105
Less: provision for impairment of other receivables	(932)	(23,189)
Receivable due from customers for construction work (Note 20)	388,442	154,388
Less: provision for receivable due from customers for construction work	(95,560)	(95,560)
Financial assets within trade and other receivables, net	3,421,530	1,547,586
Advances to suppliers and subcontractors	4,705,203	714,064
Less: provision for impairment of advances to suppliers	(80,284)	(52,069)
VAT receivable	2,350,783	585,890
Provision for VAT receivable	(21,915)	(32,802)
Other taxes receivable	24,536	15,379
Non-financial assets within other receivables, net	6,978,323	1,230,462
Total trade and other receivables	10,399,853	2,778,048

Included in VAT receivable at 31 December 2010 is VAT related to advances received from customers in amount of RR 1,874,742 (31 December 2009: RR 63,866). This amount will be recovered as goods, work and services are provided after the reporting date. Also, VAT receivable includes export tax which will reduce VAT payable to the state budget after confirmation from tax authorities is received after the reporting date.

Current trade receivables consist of trade receivables for goods shipped and services delivered.

14 Trade and Other Receivables and Other Financial Assets (continued)

At 31 December 2010, trade receivables of RR 91,980 (31 December 2009: RR 111,184) and other financial receivables of RR 96,492 (31 December 2009: RR 118,749) were impaired and provided for. The individually impaired trade and other receivables mainly relate to counterparties, which are in unexpectedly difficult economic situations. Provision for receivable due from customers for construction work in progress of RR 95,560 at 31 December 2010 and 2009 relates to the customer of the Group – Gazpromstroy LLC, for increased cost of materials used in construction. The Group pursued legal actions against the company but latest court holdings were judged for the defendant.

Movement in provision for impairment of financial assets is presented below:

	2010		2009	
	Trade receivables	Other receivables	Trade receivables	Other receivables
Provision for impairment of financial assets at 1 January	111,184	118,749	126,729	7,822
Provision for receivables impairment	-	-	-	110,927
Unused amounts reversed	(19,095)	(22,142)	(19,459)	-
Effect of translation to presentation currency	(109)	(115)	-	-
Business combinations	-	-	3,914	-
Provision for impairment of financial assets at 31 December	91,980	96,492	111,184	118,749

Movement in provision for impairment of non-financial assets within other receivables is presented below:

	2010	2009
Provision for impairment of non-financial assets at 1 January	84,872	76,863
Provision for receivables impairment	28,214	29,918
Unused amounts reversed	(10,887)	(21,909)
Provision for impairment of non-financial assets at 31 December	102,199	84,872

The carrying amounts of the Group's financial assets within trade and other receivables are denominated in the following currencies:

	31 December 2010	31 December 2009
RR	3,288,172	1,464,287
USD	115,087	52,630

Total borrowings	4,639,418	5,309,389

17 Borrowings (continued)

At 31 December 2010, the Group pledged property, plant and equipment and inventories in total amount of RR 496,930 and 466,897 (2009: RR 1,009,149 and RR 527,890), respectively. At 31 December 2010, the Group pledged 25% plus one share of HMS Neftemash OJSC as a security for certain borrowings. Pledged value of this interest was RR 1,376,302. The Group also pledged its 51% of ordinary shares in GTNG as a security for the Long-term loan 3, obtained for the acquisition of GTNG.

During 2010, interest rates on long-term borrowings were revised and decreased for 4-7% per annum on the basis of contractual provisions of loan agreements which allow periodic revisions of interest rates.

At 31 December 2010 and 2009, the fair value of long-term and short-term borrowings approximated their carrying amount.

The Group has not entered into any hedging agreements in respect of its foreign currency obligations or interest rate.

18 Finance Lease Liabilities

The finance lease liabilities carry the effective rate of interest of 19.6% at 31 December 2010 (31 December 2009: 22.1%) and are effectively collateralised by the leased assets, as the assets revert to the lessor in the event of default.

	Minimum lease payments at 31 December		Discounted value of minimum lease payments at 31 December	
	2010	2009	2010	2009
Finance lease payable:				
Not later than 1 year	9,192	16,512	8,446	13,094
Later than 1 year and not later than 5 years	9	9,225	9	8,479

Long-term finance lease liabilities	-	-	9	8,479

19 Retirement Benefit Obligations

The entities within the Group provide post-employment and other long-term payments of a defined benefit nature to its employees. These defined benefit plans maintained by each entity separately include lump sum upon retirement, in case of disability, death or attaining jubilee age as well as financial support after retirement. All plans are completely unfunded, i.e. provided on pay-as-you-go basis.

Liability arisen from these plans was calculated by an external actuary in accordance with benefit formula based on individual census data using Projected Unit Credit Method as required by IAS 19, *Employee Benefits*. Assumptions were determined based on market conditions as at statement of financial position dates.

The following assumptions were used for the actuarial assessment at 31 December 2010 and 2009:

	31 December 2010	31 December 2009
Discount rate	7.5%	9.0%
Inflation	6.4%	6.5%
Expected annual increase in salaries	7.5%	7.5%
Mortality	USSR, 1985-1986	USSR, 1985-1986

The following amounts were recognised in profit or loss:

	2010	2009
Current service cost	12,813	12,378
Interest cost	19,500	17,113
Past service cost	(6,295)	(194)
Curtailement of plans	(43,756)	-
Net actuarial loss/(gain) recognised during the year	51,546	(11,624)
Net periodic benefit expense	33,808	17,673

19 Retirement Benefit Obligations (continued)

During 2010, several entities of the Group cancelled or otherwise changed certain clauses of the respective defined benefit plans, which led to a decrease of defined benefit obligations for RR 41,726. This change was accounted for as a curtailment of benefit plans and included in net periodic benefit expense. The amounts recognised in the consolidated statement of financial position were as follows:

	31 December 2010	31 December 2009
Present value of defined benefit obligations	286,974	145,319
Unrecognised past service cost	287	1,010
Liability in the statement of financial position	287,261	146,329

Changes in the present value of the Group's pension benefit obligation are as follows:

	31 December 2010	31 December 2009
Present value of defined benefit obligations at the beginning of the year	145,319	149,754
Current service cost	12,813	12,378
Interest expense	19,500	17,114
Actuarial loss/(gain)	51,546	(11,625)
Curtailment of plans	(43,756)	-
Benefits paid	(14,017)	(9,849)
Exchange adjustments	931	(2,853)
Liabilities acquired in a business combination	120,212	3,218
Past service cost	(5,574)	(12,818)
Present value of defined benefit obligations at the end of the year	286,974	145,319

Short-term and long-term classification was determined based on discounted value of future obligation which is payable within 12 months from the statement of financial position date:

	31 December 2010	31 December 2009
Short-term	24,736	20,922
Long-term	262,525	125,407
Discounted value of defined benefit obligations at the end of the year	287,261	146,329

The expected contributions under voluntary pension programs in 2011 are expected in the amount close to RR 30,427.

20 Construction Contracts

During 2010 and 2009, the construction contracts revenue was recognised in relation to stage of completion for each contract. The stage of completion of a contract was determined based on the proportion that contract costs incurred for work performed to date bear to the estimated total contract costs.

The following figures relate to the Group's activities under construction contracts:

	2010	2009
Construction contracts revenue	9,886,840	4,182,873
Contract cost expensed	(8,464,697)	(3,834,804)
Gross margin	1,422,143	348,069

	31 December 2010	31 December 2009
Advances from customers, related to construction contracts	286,273	140,738
Retentions	103,197	44,471

The Group's financial position with respect to construction contracts in progress is as follows:

	31 December 2010	31 December 2009
Aggregate amount of contract cost incurred	6,438,210	2,569,400
Aggregate amount of recognised profits	471,972	134,279
Aggregate amount of recognised losses	(16,066)	(1,097)
Less: Progress billings	(6,505,674)	(2,548,194)
Gross amount due from customers for contract work	388,442	154,388

20 Construction Contracts (continued)

	31 December 2010	31 December 2009
Aggregate amount of contract cost incurred	5,689,468	1,206,334
Aggregate amount of recognised profits	1,647,779	298,218
Aggregate amount of recognised losses	(68,270)	(2,633)
Less: Progress billings	(13,061,396)	(1,665,390)
Gross amount due to customers for contract work	(5,792,419)	(163,471)

21 Trade and Other Payables

	31 December 2010	31 December 2009
Trade payables	1,287,523	1,264,490
Other payables	106,936	58,110
Financial trade and other payables	1,394,459	1,322,600
Advances from customers	3,319,527	1,561,765
VAT on advances from customers included in receivables due from/payables due to customers for construction work	-	-
Payables due to customers for construction work (Note 20)	5,792,419	163,471
Wages and salaries payable	292,953	207,697
Other non-financial payables	9,404,899	1,932,933
Total trade and other payables	10,799,358	3,255,533

22 Other Taxes Payable

	31 December 2010	31 December 2009
VAT	983,560	207,737
Unified social tax	43,422	42,549
Personal income tax	27,598	24,302
Property tax	11,016	11,514
Transport tax	2,970	2,595
Land tax	1,976	2,039
Water tax	83	72
Other taxes	736	2,491
Total other taxes payable	1,071,361	293,299

Included in VAT payable at 31 December 2010 is VAT related to advances paid to suppliers and subcontractors in amount of RR 622,761 (31 December 2009: RR 130,303).

23 Provisions for Liabilities and Charges

	Short-term part of warranty provision	Long-term part of warranty provision	Provision for legal claims	Unused vacation allowance
At 1 January 2009	27,111	-	21,919	150,306
Additional provisions	6,600	11,550	17,242	-
Unused amounts reversed	-	-	(3,587)	(10,070)
Business combinations	60	-	179	-
At 31 December 2009	33,771	11,550	35,753	140,236
Additional provisions	26,081	25,028	34,073	20,150
Effect of translation to presentation currency	(1,451)	(887)	(400)	136
Unused amounts reversed	-	-	-	-
Business combinations	-	-	-	23,864
At 31 December 2010	58,401	35,691	69,426	184,386

23 Provisions for Liabilities and Charges (continued)

Warranty. The Group provides warranties on certain products and undertakes to repair or replace items that fail to perform satisfactorily. A provision of RR 94,092 has been recognised at the year-end for expected warranty claims based on past experience of the level of repairs and returns.

Legal claims. The balance at 31 December 2010 is expected to be utilised by the end of 2011. In the opinion of management, after taking appropriate legal advice, the outcome of these legal claims will not give rise to any significant loss beyond the accrued amounts.

24 Share Capital, Other Equity Items and Earnings per Share

Share capital and share premium. The Company was incorporated with a share capital of EUR 26 thousand (RR 1,010 at the incorporation date), representing 26,000 authorised and outstanding fully paid ordinary shares with par value of EUR 1, issued on 27 April 2010 with no premium (Note 1). On 7 June 2010, those shares were split into 2,600,000 shares with par value of EUR 0.01.

Further, in accordance with the restructuring plan, agreed and entered into by the shareholders of HMS Group (Note 1), the Company issued additionally 100,000,000 shares. Those shares were distributed between the Company's shareholders pro rata to their existing interests at the date of the restructuring agreement. These additionally issued shares were paid by the shareholders with their shares in certain limited liability companies, registered in the Russian Federation, which directly and indirectly held 100% interest in HMS Group OJSC.

Below are the details of share issues:

Date of transaction	Quantity of shares issued	Par value, EUR	Share capital, RR thousand	Share premium, RR thousand
27 April 2010	26,000	1.00	1,010	-
6 June 2010 – share split	2,600,000	0.01	1,010	-
30 September 2010	84,994,600	0.01	35,144	210,862
19 October 2010	15,005,400	0.01	6,356	-
Total	102,600,000		42,510	210,862

While the transfer of shares in HMS Group OJSC under the second additional issue occurred on 19 October 2010, this additional share issue was legally finalised with the Cyprus authorities on 8 December 2010. This issue was presented in the consolidated statement of financial position at 31 December 2009 as share capital to be issued and was reclassified to share capital upon completion of legal registration.

At 31 December 2010, the Company's authorised share capital consisted of 102,600,000 ordinary shares issued and fully paid.

Other reserves. During 2010, the members of Hydroindustry LLC and Hydromashinvest LLC made cash contributions into the capital of these entities in amount of RR 85,817.

At 31 December 2010, included in other reserves were expenses in amount of RR 83,865, incurred by the Group in relation to its preparation for an initial public offering ("IPO") of the Company's shares on the London Stock Exchange, which was successfully completed in February 2011 (Note 37). These expenses include the fees of RR 3,066 for other assurance services charged by the Company statutory auditor. Upon completion of the IPO transaction, all accumulated issue costs are reclassified as a deduction to share premium.

Dividends. During 2010, dividends were accrued only to the holders of preference shares in the subsidiaries in amount of RR 320,458 (2009: RR 160,009), but no dividends were paid to the shareholders or non-controlling interest holders of common shares. As a result, allocations of net assets to non-controlling interest holders of preference shares and common shares were reflected in this consolidated condensed interim financial information.

Earnings per share. The Company has no dilutive potential ordinary shares; therefore, the diluted earnings per share equal the basic earnings per share. Basic earnings per share are calculated by dividing the profit or loss attributable to owners of the Company by the weighted average number of ordinary shares in issue during the period. The weighted average number of ordinary shares in issue during the year ended 31 December 2010 and 2009 was calculated as if the Company existed at 1 January 2009 and through 2009 with 102,600,000 issued ordinary shares.

Profit/(loss) for the year ended 31 December 2010 and 2009 from continuing operations attributable to ordinary shareholders is calculated as follows:

	2010	2009
Profit/(loss) for the year attributable to ordinary shareholders	1,469,116	(31,819)
Weighted average number of ordinary shares in issue (thousands)	102,600	102,600
Basic and diluted earnings per ordinary share (expressed in RR per share)	14,32	(0.31)

25 Income Taxes

Income tax expense for the year ended 31 December 2010 and 2009 included:

	2010	2009
Current tax	395,556	270,277
Deferred tax	186,743	(57,891)
Total income tax expense	582,299	212,386

Income before tax for financial reporting purposes is reconciled with the income tax expense as follows:

	31 December 2010	31 December 2009
Income before tax	2,163,427	282,483
Estimated tax charge at applicable tax rates of 20.6% (2009: 26.0%)	(446,353)	(73,385)
Tax effect of items which are not deductible or assessable for taxation purposes:		
Non-deductible social expenditures	(2,245)	(15,614)
Effect of adjustment resulting from intra-group sales of subsidiaries	(60,757)	(31,603)
Impairment of goodwill	-	(23,400)
Other non-deductible expenses	(72,944)	(68,384)
Income tax charge	(582,299)	(212,386)

Differences between IFRS and local tax legislation give rise to temporary differences between the carrying value of assets and liabilities for financial reporting purposes and for tax purposes. The tax effect of these temporary differences is recorded at the rate of 20% (Russian tax legislation), 16-25% (Ukrainian tax legislation), 24% (Belorussia tax legislation) and 10% (Cypriot tax legislation), accordingly. With effect from 1 January 2011 a new Tax code is applied in the Ukraine, which provides for the gradual decrease of profit tax rate from 25% to 16% during 2011-2014. Consequently, at 31 December 2010, deferred tax assets and liabilities of Ukrainian entities of the Group were measured at the rates, which will be enacted at the time when respective deferred assets and liabilities are utilised.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes relate to the same fiscal authority.

The gross movement on the deferred income tax account is as follows:

	1 January 2010	Credited/ (charged) to profit or loss	Business combinations (Note 10)	Translation differences recognised in equity	Change in income tax rate recognised in profit and loss	Credited directly to equity	31 December 2010

Long-term provisions	8,677	9,607	49	(8)	18,325
Loss carried forward	19,953	(1,184)	-	-	18,769
Trade and other payables	77,452	(10,414)	-	(10)	67,028
Other taxes payable	5,278	(5,278)	-	-	-
Short-term provisions	25,446	(3,837)	255	(110)	21,754
	149,998	34,648	2,094	(122)	186,618
Total net deferred tax liability	(190,447)	58,515	(16,445)	5,062	(143,315)

At 31 December 2010, the Group has not recognised a deferred tax liability in respect of temporary differences of RR 4,209,970 thousand (31 December 2009: RR 2,911,856) associated with investments in subsidiaries as the Group is able to control the timing of the reversal of those temporary differences and does not intend to reverse them in the foreseeable future.

According to the Tax Code of the Russian Federation tax losses incurred, and current income tax overpaid, by a Group company may not be offset against current tax liabilities and taxable income of any other Group companies. Therefore, deferred tax assets and deferred tax liabilities of the Group companies may not be offset.

26 Revenue

	2010	2009
Revenue from construction contracts	9,886,840	4,182,873
Sales of pumps and spare parts	6,781,633	5,947,107

33 Balances and Transactions with Related Parties

Parties are generally considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions as defined by IAS 24. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

Related parties may enter into transactions which unrelated parties may not and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

The table below contains the disclosure by group of related parties with which the Company entered into significant transactions or has significant balances outstanding. Other category of related parties comprises individuals who are the ultimate owners of shares in the Company, who are also key management of the Group, and other key managers.

Balances with related parties	31 December 2010	
	Associates	Other
Accounts receivable	2,934	948
Accounts payable	784	74,560

Balances with related parties	31 December 2009

Purchase of raw materials	(27,181)	-
Finance lease expenses	(25)	(128)

33 Balances and Transactions with Related Parties (continued)

In 2010, the Group did not receive any loans from related parties (2009: RR 9,037 with a weighted average interest rate of 14%). In 2010, the Group did not issue any loans to related parties (2009: RR 12,720 with a weighted average interest rate of 15.5%).

Key management compensation

Key management compensation amounted to RR 170,969 for the year ended 31 December 2010 (2009: RR 134,506) and included short-term benefits such as salaries and bonuses paid to management as set forth in labour contracts concluded annually. Included in these amounts are emoluments paid to the Company's Directors by subsidiaries in their executive capacity totalling RR 75,802 for the year ended 31 December 2010 (2009: RR 50,778).

For the year ended 31 December 2010, preference dividends of RR 311,331 were accrued and paid by the Company's subsidiaries to the holders of non-controlling interests who are ultimate shareholders of the Group and the members of key management (2009: RR 150,020).

34 Contingencies and Commitments

(i) Legal proceeding

During the year, the Group was involved in a number of court proceedings (both as a plaintiff and a defendant) arising in the ordinary course of business. In the opinion of management, there are no current legal proceedings or other claims outstanding, which could have a material effect on the result of operations or financial position of the Group and which have not been recorded or disclosed in these consolidated financial statements.

(ii) Tax legislation

Russian and Ukrainian tax, currency and customs legislation is subject to varying interpretations and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Group companies may be challenged by the state authorities.

The Russian and Ukrainian tax authorities may be taking a more assertive position in their interpretation of the legislation and assessments, and it is possible that transactions and activities that have not been challenged in the past may be challenged. In October 2006, the Supreme Arbitration Court of the Russian Federation issued guidance to lower courts on reviewing tax cases providing a systemic roadmap for anti-avoidance claims, and it is possible that this will significantly increase the level and frequency of tax authorities' scrutiny.

As a result, significant additional taxes, penalties and interest may be assessed. Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances, reviews may cover longer periods.

Russian transfer pricing legislation provides the possibility for tax authorities to make transfer pricing adjustments and impose additional tax liabilities in respect of all controllable transactions, provided that the transaction price differs from the market price by more than 20%. Controllable transactions include transactions with interdependent parties, as determined under the Russian Tax Code, all cross-border transactions (irrespective whether performed between related or unrelated parties), transactions where the price applied by a taxpayer differs by more than 20% from the price applied in similar transactions by the same taxpayer within a short period of time, and barter transactions. There is no formal guidance as to how these rules should be applied in practice. In the past, the arbitration court practice with this respect has been contradictory.

Tax liabilities arising from intercompany transactions are determined using actual transaction prices. It is possible with the evolution of the interpretation of the transfer pricing rules in the Russian Federation and the changes in the approach of the Russian tax authorities, that such transfer prices could potentially be challenged in the future. Given the brief nature of the current Russian transfer pricing rules, the impact of any such challenge cannot be reliably estimated; however, it may be significant to the financial condition and/or the overall operations of the entity.

The Group includes companies incorporated outside of Russia. Tax liabilities of the Group are determined on the assumptions that these companies are not subject to Russian profits tax because they do not have a permanent establishment in Russia. Russian tax laws do not provide detailed rules on taxation of foreign companies. It is possible that with the evolution of the interpretation of these rules and the changes in the approach of the Russian tax authorities, the non-taxable status of some or all of the foreign companies of the Group in Russia may be challenged. The impact of any such challenge cannot be reliably estimated; however, it may be significant to the financial condition and/or the overall operations of the entity.

34 Contingencies and Commitments (continued)

Russian tax legislation does not provide definitive guidance in certain areas. From time to time, the Group adopts interpretations of such uncertain areas that reduce the overall tax rate of the Group. As noted above, such tax positions may come under heightened scrutiny as a result of recent developments in administrative and court practices; the impact of any challenge by the tax authorities cannot be reliably estimated; however, it may be significant to the financial condition and/or the overall operations of the entity.

In addition to the above transfer pricing matters, management estimates that the Group has other possible obligations from exposure to other than remote tax risks at 31 December 2010 of RR 1,975 (31 December 2009: RR 1,975). These exposures primarily relate to bonuses to employees and return of goods.

(iii) Environmental matters

The enforcement of environmental regulation in Russian Federation and Ukraine is evolving and the enforcement posture of government authorities is continually being reconsidered. The Group periodically evaluates its obligations under environmental regulations. As obligations are determined, they are recognised immediately. Potential liabilities, which might arise as a result of changes in existing regulations, civil litigation or legislation, cannot be estimated but could be material. In the current enforcement climate under existing legislation, management believes that there are no significant liabilities for environmental damage.

(iv) Insurance policies

The Russian and Ukrainian insurance services market is evolving. Part of the Group's production facilities are adequately covered by insurance. The Group has not adequately insured business interruption, third party liability for damage to property and environment resulting from accidents involving the Group's property or connected with its operations. Until the Group ensures adequate insurance coverage there is a risk that losses incurred or property damage inflicted by the Group may have a significant effect on the Group's financial position and operations.

(v) Contractual commitments

At 31 December 2010, the Group had contractual commitments for the purchase of components for construction of property, plant and equipment for RR 105,777 (31 December 2009: RR 33,168) and for the purchase of other intangible assets from the Group's associate for RR 602,780 (31 December 2009: RR 0).

The Group holds short-term cancellable and non cancellable operating leases. The future commitments of the non cancellable leases are not material.

(vi) Loan covenants

Under the terms of its loan agreements, the Group is required to comply with a number of covenants, including maintenance of the certain level of net assets and certain other requirements.

At 31 December 2009, due to the breach of certain covenants, the banks were contractually entitled to request early repayment of the outstanding amounts of RR 650,000 with original maturities of less than twelve months after the reporting date. The loans were not called by the lenders earlier than their respective contractual maturity dates.

35 Segment Information

Management has determined the operating segments based on the management reports, which are primarily derived from unaudited and not reviewed IFRS financial statements. The management reports are reviewed by the chief operating decision-maker that is used to make strategic decisions. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Managing Director of the Company. The following criteria have been used for determining the operating segments and assigning the Group subsidiaries to particular segment:

- Business activities of companies;
- Organizational structure of companies;
- Nature of production processes;
- Manufactured and sold products;
- Specific characteristics of buyers/customers.

The **first** operating segment “**Industrial pumps**” includes:

	31 December 2010	31 December 2009
1	HMS Pumps OJSC (formerly Livhydromash OJSC)	Livhydromash OJSC
2	LPKC LLC	LPKC LLC
3	HMS Household Pumps OJSC (formerly Electrodivigatel OJSC)	Electrodivigatel OJSC
4	Livnynasos OJSC	Livnynasos OJSC
5	HYDROMASHINPROM CJSC	HYDROMASHINPROM CJSC
6	Nasosenergomash OJSC	Nasosenergomash OJSC
7	Trade house HYDROMASHSERVICE Ukraine LLC (formerly TD Sumskie nasosy LLC)	Trade house HYDROMASHSERVICE Ukraine LLC (formerly TD Sumskie nasosy LLC)
8	SPA Gydromash CJSC	SPA Gydromash CJSC
9	Nizhneartovskremservis CJSC	Nizhneartovskremservis CJSC
10	HYDROMASHSERVICE CJSC	HYDROMASHSERVICE CJSC
11	Plant Promburvod OJSC	Plant Promburvod OJSC
12	-	IRVKP
13	-	Hydromash-Industria LLC

The **second** operating segment “**Modular equipment**” (former “Oil and gas equipment” segment) includes:

1	HMS Neftemash OJSC (formerly Neftemash OJSC)	Neftemash OJSC
2	Nizhneartovskremservis CJSC	Nizhneartovskremservis CJSC
3	SPA Gydromash CJSC	SPA Gydromash CJSC
4	HYDROMASHSERVICE CJSC	HYDROMASHSERVICE CJSC
5	EPF “SIBNA” Inc. OJSC	EPF “SIBNA” Inc. OJSC

The **third** operating segment “**Engineering, procurement and construction**” (EPC, former “Oil and gas construction” segment) includes:

1	Trest Sibkomplektmontagnaladka OJSC	Trest Sibkomplektmontagnaladka OJSC
2	HYDROMASHSERVICE CJSC	-
3	Tomskgazstroy OJSC	Tomskgazstroy OJSC
4	Giprotumenneftegaz OJSC	-
5	IRVKP	-

35 Segment Information (continued)

The table below contains **other** companies that did not fall under the above listed operating segments

1	HMS Group Management LLC (formerly Hydraulic Machines and Systems Management LLC)	Hydraulic Machines and Systems Management LLC
2	GMS Group OJSC (formerly Hydraulic Machines and Systems Group LLC)	GMS Group OJSC (formerly Hydraulic Machines and Systems Group LLC)
3	HYDROMASHSERVICE CJSC	HYDROMASHSERVICE CJSC
4	United Industrial Group LLC (no business)	United Industrial Group LLC (no business)
5	Sibservice LLC (no business)	Sibservice LLC (no business)
6	Hydromashkomplekt LLC	Hydromashkomplekt LLC
7	Business Centre Hydromash LLC	Business Centre Hydromash LLC
8	HMS-Promburvod CJSC	HMS-Promburvod CJSC
9	Hydroindustriya LLC	-
10	Hydromashinvest LLC	-
11	HMS-Holding LLC	-
12	Promhydroservice LLC	-
13	HMS Hydraulic Machines & Systems Group plc	-

Associates. The first operating segment “Industrial pumps” also includes VNIIAEN OJSC, an associate of the Group. The second operating segment “Modular equipment” also includes Dimitrovgradkhimmash OJSC, an associate of the Group.

Geographically, management considers the performance of their subsidiaries in Russia, Ukraine, Belorussia and location of the customers where the Group performs its trade and commercial activities.

The reportable operating segments derive their revenue primarily from the manufacture and sale of industrial pumps, modular oil and gas equipment and other modular equipment, oil and gas construction and the other products and services.

Sales between segments are carried out at the arm’s length. The revenue from external parties reported to management is measured in a manner consistent with that in the consolidated statement of comprehensive income.

Management of the Group assesses the performance of operating segments based on a measure of adjusted EBITDA, which is derived from the consolidated financial statements prepared in accordance with IFRS.

For this purpose, EBITDA is defined as operating profit/loss adjusted for other income/expenses, depreciation and amortisation, provision for obsolete inventory, provision for impairment of accounts receivable, unused vacation allowance, excess of fair value of net assets acquired over the cost of acquisition. This measurement basis excludes the effects on non-recurring expenditure from the operating segments, such as restructuring costs, legal expenses and goodwill impairments, when the impairment is a result of an isolated, non-recurring event.

The segment information provided to the CODM for the reportable segments is reconciled to corresponding amounts reported in the Group’s consolidated financial statements prepared in accordance with IFRS.

The segment information provided to the CODM for the reportable segments for the year ended 31 December 2010 is as follows:

Disclosures by segments	Industrial pumps	Modular equipment	EPC	All other segments	Total
Revenue External, management report	10,712,374	5,804,694	6,134,904	418,042	23,070,014

Other	264,784	198,956	-	-

The information about non-current assets is submitted to persons responsible on a regular basis to take management decisions by operating segments.

36 Financial Risk Management

Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance. Risk management is carried out by the Group's finance department. The Group's finance department identifies and evaluates financial risks in close co-operation with the Group's operating units.

(a) Market risk

(i) Foreign exchange risk

The Group operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the US dollar and euro. Foreign exchange risk arises from future commercial transactions, recognised assets and liabilities and investments in foreign operations.

The tables below summarise the Group's exposure to foreign currency exchange rate risk at 31 December 2010 and 2009 respectively:

	31 December 2010			31 December 2009		
	Monetary financial assets	Monetary financial liabilities	Net position	Monetary financial assets	Monetary financial liabilities	Net position
USD	136,833	(83,740)	53,093	128,163	(308,124)	(179,961)
EUR	2,740	(708,446)	(705,706)	22,620	(2,331)	20,289
Total	139,573	(792,186)	(652,613)	150,783	(310,455)	(159,672)

At 31 December 2010, if RR had strengthened/weakened by 20% against US dollar with all other variables held constant, profit for the year would have been RR 8,495 lower/higher (2009: 28,794 higher/ lower), mainly as a result of foreign exchange gains/losses on translation of US dollar-denominated cash and trade receivables.

At 31 December 2010, if RR had strengthened/weakened by 20% against euro with all other variables held constant, profit for the year would have been RR 112,913 higher/lower (2009: RR 3,246 lower/higher), mainly as a result of foreign exchange gains/losses on translation of EUR-denominated trade payables and borrowings.

The Group does not have formal arrangements to mitigate foreign exchange risks of the Group's operations. However, management monitors net monetary position of the Group's financial assets and liabilities denominated in foreign currency on a regular basis.

(ii) Price risk

The Group is not exposed to equity securities price risk because it does not hold a material portfolio of quoted equity securities. The Group is not exposed to commodity price risk because both its finished products and purchased raw materials are not traded on a public market.

(iii) Interest rate risk

Interest rate risk arises from movements in interest rates which could affect the Group's financial results or the value of the Group's equity. Monitoring of current market interest rates and analysis of the Group's interest-bearing position is performed by the Group's finance department as a part of interest rate risk management procedures. Monitoring is performed taking into consideration refinancing, renewal of existing positions and alternative financing.

The sales revenue and operating cash flow of the Group mainly do not depend on the change of market interest rates. The Group is exposed to the interest rate risk due to fluctuations of interest rates on short-term borrowings (Note 17). The Group does not have significant interest-bearing assets.

The fair value of the Group's bonds is disclosed in Note 17 and is estimated based on the market quotations. The fair value of the rest of financial instruments is approximately equal to their carrying value.

At 31 December 2010, if interest rates at that date had been 10% basis points higher/lower with all other variables held constant, profit for the year would have been RR 46,393 (2009: RR 52,755) lower/higher, mainly as a result of lower interest expense on variable interest liabilities.

36 Financial Risk Management (continued)

All other financial instruments are non-interest bearing.

(b) Credit risk

The Group takes on exposure to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Exposure to credit risk arises as a result of the Group's sales of products on credit terms and other transactions with counterparties giving rise to financial assets which consist principally of trade receivables, cash and bank deposits. The maximum exposure to credit risk of the financial assets is limited to their carrying amounts.

	31 December 2010	31 December 2009
Trade and other receivables (Note 14, 15)		
- Trade receivables	3,004,799	1,400,707
- Other financial receivables	437,998	206,377
Cash and cash equivalents (Note 12)		
- Bank balances (incl. restricted cash)	354,742	758,292
- Cash on hand	1,322	740
Total on-balance sheet exposure	3,798,861	2,366,116
Total maximum exposure to credit risk	3,798,861	2,366,116

Cash and short-term deposits. Cash, cash equivalents and short-term deposits are placed in major multinational and Russian banks with independent credit ratings. The banks are assessed to ensure exposure to credit risk is limited to an acceptable level. All the bank balances and term deposits are neither past due nor impaired.

Analysis by credit quality of bank balances and short-term deposits is as follows:

Agency	Rating	31 December 2010	31 December 2009
Fitch***	B	47,177	211,486

**** Information Center Rating

36 Financial Risk Management (continued)

Trade and other financial receivables. The Group assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. The credit quality of each new customer is analyzed before the Group provides it with the terms of goods supply and payments. The Group commercial department reviews ageing analysis of outstanding trade receivables and follows up on past due balances. The credit quality of the Group's significant customers is monitored on an ongoing basis. The majority of the Group's customers are large buyers of industrial equipment and oil and gas companies, which have similar credit risk profile to the Group. The Group does not analyse its customers by classes for credit risk management purposes.

As of the reporting date analysis of credit quality of trade and other accounts receivable was as follows:

	31 December 2010		31 December 2009	
	Trade receivables	Other financial receivables	Trade receivables	Other financial receivables
Total not overdue and not impaired, including:	2,933,418	432,037	1,044,976	208,987
Large enterprises	1,640,516	293,118	706,848	71,241
Middle and small size companies	1,229,134	18,233	335,752	80,659
Government organization and agencies	4,891	3,257	2,297	301
Scientific research institutes	-	-	-	-
Individuals	13,173	48,294	79	15,585
Banks*	-	49,697	-	35,939
Other	45,704	19,438	-	913
Total past due but not impaired, including:	71,381	5,961	355,731	1,739
- less than 60 days overdue	16,851	100	179,004	50
- 61 to 180 days overdue	11,790	2	112,187	745
- 181 to 365 days overdue	25,986	1,010	42,547	917
- over 365 days overdue	16,754	4,849	21,993	27
Individually impaired (gross), including:	91,980	96,492	111,184	118,749
Current to be impaired	26,538	-	32,362	11,936
- less than 60 days overdue	5,568	138	2,715	-
- 61 to 180 days overdue	25,842	784	7,170	3,283
- 181 to 365 days overdue	3,681	708	12,856	6,010
- over 365 days overdue	30,351	94,862	56,081	97,520
Less impairment provision	(91,980)	(96,492)	(111,184)	(118,749)
Total	3,004,799	437,998	1,400,707	206,377

* Analysis of credit ratings of banks is provided below.

Analysis by credit quality of short-term and long-term deposits placed in banks is as follows:

Agency	Rating	31 December 2010	31 December 2009
Moody's*	Aaa	1,949	11,421
S&P's**	B-	5,407	10,256
National rating Agency	AAA	8,563	14,262
National rating Agency	UaBBB+	2,565	-
Moody's*	Baa1	11,079	-
Moody's*	Ba3	20,000	-
Total		49,563	35,939

The amount exposed to credit risk relating to financial receivables (the carrying amount of trade and other accounts receivable less doubtful debt provision) at 31 December 2010 is RR 3,442,797 (2009: RR 1,607,084).

Credit risks concentration

Date	Numbers of counterparties with aggregated receivables balances above RR 50,000	Total aggregate amount of these balances	% of the gross amount of trade and other receivables
At 31 December 2010	12	1,714,536	47%
At 31 December 2009	9	975,746	53%

36 Financial Risk Management (continued)

The Group's bank deposits are held only with 6 banks (2009: 8 banks) thus exposing the Group to a concentration of credit risk.

Cash is collected according to the contractual terms during the reporting and subsequent periods, and management does not expect any losses from non-performance by these counterparties.

(c) Liquidity risk

Liquidity risk is defined as the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Group's finance department is responsible for management of liquidity risk, including funding, settlements, related processes and policies. The operational, capital, tax and other requirements and obligations of the Group are considered in the management of liquidity risk. Management utilises cash flow forecasts and other financial information to manage liquidity risk.

The table below gives information on the contractual repayment dates of the Group's financial liabilities as of the reporting date with regard to expected cash flows:

Statement of financial position item	Carrying amount at 31 December 2010	Cash flows under the contract			
		Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Bank loans*	4,568,359	1,231,343	1,728,685	2,673,893	-
Other loans*	71,059	23,605	51,953	-	-
Finance lease liabilities*	8,455	9,192	9	-	-
Trade accounts payable	1,287,523	1,287,523	-	-	-
Other payables	106,936	106,936	-	-	-

Statement of financial position item	Carrying amount at 31 December 2009	Cash flows under the contract			
		Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
Bank loans*	5,242,540	2,541,386	1,658,602	2,464,950	-
Other loans*	66,840	34,131	-	-	32,709
Finance lease liabilities*	21,573	16,512	9,216	9	-
Trade accounts payable	1,264,490	1,264,490	-	-	-
Other payables	58,110	58,110	-	-	-

* As the amounts included in the table are the contractual undiscounted cash flows, including future interest, these amounts will not reconcile to the amounts disclosed on the statement of financial position for borrowings and trade and other payables.

When the amount payable is not fixed, the amount disclosed is determined by reference to the conditions existing at the reporting date. Foreign currency payments are translated using the spot exchange rate at the consolidated statement of financial position date.

The Group is extensively expanding its business by raising external finance. The Group uses credit facilities in major multinational and Russian banks. Availability of open credit lines together with long-term borrowings gives the Group the possibility to balance credit portfolio and decrease risk of adverse fluctuations of financial markets.

The table below analyses credit lines of the Group at 31 December 2010 and 31 December 2009:

	31 December 2010	31 December 2009
Credit lines	8,597,261	6,300,477
Undrawn credit facilities	4,016,153	1,065,174

The Group did not exceed the credit limits of any of the banks during the reporting period. The management of the Group does not see any credit risks that could arise as a result of financial transactions (as well as any threat of discontinued operation) of these banks.

36 Financial Risk Management (continued)

Liquidity ratio. The Group's approach to managing liquidity is to ensure, to the extent possible, that the Group maintains, at all times, sufficient liquidity for settling its liabilities in due time avoiding unacceptable losses or risks of damaging Group reputation. In perspective, the Group's strategy is to maintain the liquidity ratio at 1.50.

	31 December 2010	31 December 2009
Liquidity ratio	1.05	1.20
Current assets	13,770,204	6,810,953
Current liabilities	13,106,696	5,697,591

To manage the targeted liquidity ratio the Group transfers its short-term loans and borrowings to long-term ones.

Management of capital. The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to reduce the cost of capital. For different borrowings taken by different companies banks provide different interest rates (Note 17).

Gearing ratio. The Group pursues a policy of ensuring a sustainable level of capital that allows the Group to maintain the trust of the investors, creditors and the market, and secure future business development. The Group strives to maintain a balance between the potential increase of revenues, which could be achieved with higher level of borrowings, and the advantages and safety, which the sustainable equity position gives.

The Group controls capital by calculating a Gearing ratio. This ratio is calculated as the net borrowing divided by total capital. The net borrowing includes all of the long-term and short-term borrowings carried on the Group's consolidated statement of financial position less the cash and cash equivalents and restricted cash. The capital is calculated as the sum of equity attributable to the shareholders of the Company and non-controlling in the consolidated statement of financial position. In 2010, the Group's strategy have been to maintain the gearing ratio at the level not exceeding 200%.

At the end of the reporting period the gearing ratio was as follows:

	31 December 2010	31 December 2009
Long-term loans	3,864,176	3,429,475
Short-term loans	775,242	1,879,914
Total borrowings received	4,639,418	5,309,389
Cash and cash equivalents	(351,086)	(758,127)
Restricted cash	(4,978)	(905)
Net borrowing	4,283,354	4,550,357
Equity attributable to the shareholders of the Company	2,954,870	1,603,068
Non-controlling interest	1,508,263	669,631
Total capital	4,463,133	2,272,699
Gearing ratio	96%	200%

Financial assets carried at amortised cost. The estimated fair value of fixed interest rate instruments is based on estimated future cash flows expected to be received discounted at current interest rates for new instruments with similar credit risk and remaining maturity. Discount rates used depend on credit risk of the counterparty. Carrying amounts of trade and other financial receivables approximate fair values.

Liabilities carried at amortised cost. Fair values of other liabilities were determined using valuation techniques. The estimated fair value of fixed interest rate instruments with stated maturity was estimated based on expected cash flows discounted at current interest rates for new instruments with similar credit risk and remaining maturity. Carrying amounts of borrowings and trade and other payables approximate fair values.

37 Subsequent Events

Authorised share capital. On 12 January 2011, pursuant to the unanimous written resolution of the general meeting of the Company, the authorised share capital of the Company was increased from EUR 1,026,000, divided into 102,600,000 ordinary shares of EUR 0.01 each, to EUR 1,207,058.82, divided into 120,705,882 ordinary shares of EUR 0.01 each.

Initial public offering. In February 2011, the Company successfully completed the IPO of its shares on the London Stock Exchange. The Company, HMST and Skye Commercial Corp. (together with HMST, the "Selling Shareholders") offered, respectively, 14,563,427 global depositary receipts ("GDRs"), 23,041,279 GDRs and 6,035,294 GDRs, with each GDR representing 1 ordinary share of the Company. The offer price was USD 8.25 per GDR. The gross proceeds from the IPO, related to and receivable by the Company, amounted to approximately RR 3,530 million and the Company's transaction costs amounted to approximately RR 211 million.

Borrowings. Subsequent to the statement of financial position date the Group's subsidiaries received long-term RR-denominated loans in amount of RR 1,363 million from Sberbank and OJSC NOMOS-BANK, bearing interest rates of 8.90-9.00% per annum and payable from March 2012 to March 2014. During March 2011, the Group prepaid certain short-term and long-term borrowings for a total amount of approximately RR 3,304 million.

Amendments to the shareholders' agreement. In March 2011, HMST, the controlling shareholder of the Company, announced of the amendments made to the shareholders' agreement, dated 24 December 2010. These, inter alia, included the amendment to the rights of HMST Shareholders to appoint and remove directors of the Company (the "Company Directors"), so that any decision by HMST as to how to vote its shares in the Company on any appointment or removal of a Company Director must (a) prior to 1 March 2012, be approved by all but one of the directors of HMST and (b) after 1 March 2012, be approved by a simple majority of the directors of HMST. These amendments also eliminated the right of group of shareholders comprising former shareholders of Hydroindustry LLC to appoint all members of the Boards of Directors of HMST and of the Company, other than one director.
